46 THE PROBLEMS OF YOUR CUSTOMERS, GUESTS & PATIENTS

HYDRO-THERAPY IN ITS STRONG-EST FORM.

For **more than 20 years**, we have put our drive for **innovation and our expertise** into the **VELUSJET®** – adapting it to **new branches** and **new visions**. Here your **benefit**: Actually, you are buying 3 **VELUSJETS®**. The core product is the **water jet massage bed** itself. **Three variants** emerge from it, which you can choose and **change flexibly** – just **as you need it now.**

BOOST FOR YOUR BUSINESS – WITH THE WATER JET MASSAGE.

We are developing the **most effective** waterjet massage bed **on the market** - and we are constantly improving it.
Because of two reasons:

1.

Physical complaints as well as stress are noticeably **alleviated** – **the effect** is proven.
Our customers and clients **benefit** from the **VELUSJET®** in the **long term**.

2.

Our **know-how** gets **the best** out of the Hydrojet: thanks to **innovative software** and high quality level.

YOUR NEW MOST RELIABLE EMPLOYEE.

What advantages does your branch have:

Because **every branch** brings different **challenges**, the product grows with your **requirements** – because **we find the solutions** that make your **everyday life easier**.

Play detail video of **VELUSJET®**.

MEDICINE

From **muscle relaxation** to pain relief, the **VELUSJET®** achieves noticeable results.

FITNESS

Sport and health are closely interrelated. The **VELUSJET®** supports the regeneration process.

WELLNESS

Water jet massages score with a vitalizing effect and stress reduction.

Motivation problem within the team?

+ Sign of employee appreciation
+ Reduction of stress and staff absences
+ Promotion of mental health

Reduced sickness rate

Increased employee satisfaction

Tax benefits

FUNCTIONS WITH BRILLIANT OPPORTUNITIES.

What possibilities the water jet massage bed really **offers** you?

HERE A SHORT OVERVIEW:

Asynchronous use

The pressure and **the movements** of the two nozzles can be **adjusted** and **controlled asynchronously**.

Real-time control

Depending on the model, the **massage sequences** can be adjusted and **controlled live**.

Individual sequences

You can also create your **own motion sequences** that are designed to meet the **specific needs** of the user.

Thematic massages

Each device is **usable** with **pre-configured** massage sequences that focus on **specific body regions**, modes of action or **occasions**. The selection of **massage programmes** can be **customised**.

Play the video on thematic massages.

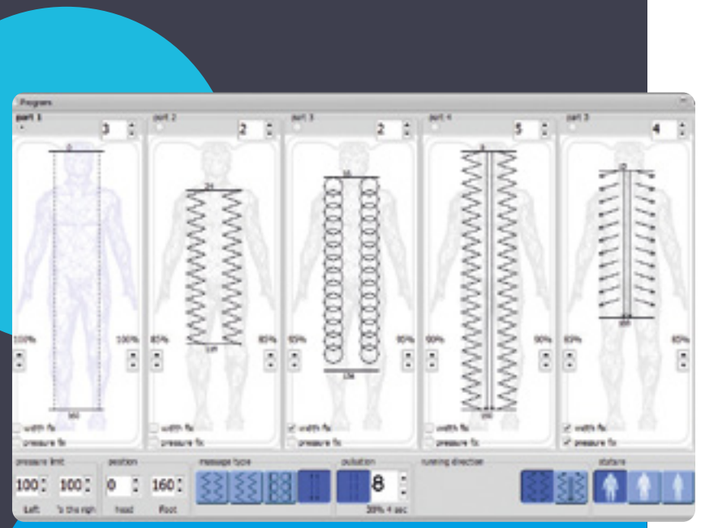
Trigger points

To **target** particularly **tense** or **painful** areas, the **water jet** can be **directed precisely** at them.

PERSPECTIVES OF INDIVIDUALIZATION.

Especially because of the **associated software**, the **VELUSJET®** is much **more interesting** for therapists and medical professionals **than other** hydrojets on the market:

Because the software allows the precise and methodical treatment of tension and pain.



In the **wellness sector**, the software is also unbeatable: With it, you have **full control** over the use of the device.

Jet-Center software in focus.

Use of quotas

If **a patient** is to receive **a massage** of exactly **20 minutes** or if customers are allowed to use the device a maximum of **5 times**, this can be set up with the software and used with **NFC cards**.

Limited access

Authorizations can be **flexibly** created or revoked with **a key** card or connection to existing **access systems**.

Self-defined massages

You can treat body width, length and locations with **any pressure** and with desired **movement pattern** - and **save** the settings in the **software** and/or on **a card**.

Experience our individual massages.

Operating hours and discount promotions

For example, **if necessary**, you can operate the hydrojet only from **8 am to 8 pm**. An option that **additionally** contributes to **the energy efficiency**. Or you specify that massages are in **the morning** for the same **price twice** as long.

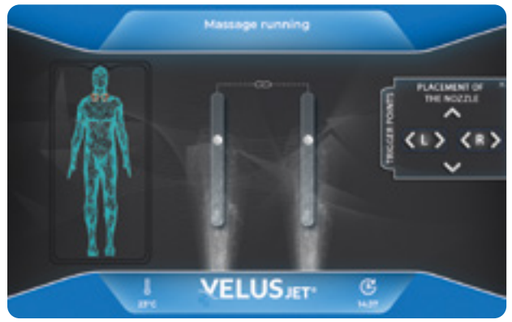
VELUSJET®

THE FINAL LINE UNDER YOUR **PAIN POINTS.**

Too much stress in the daily work routine?

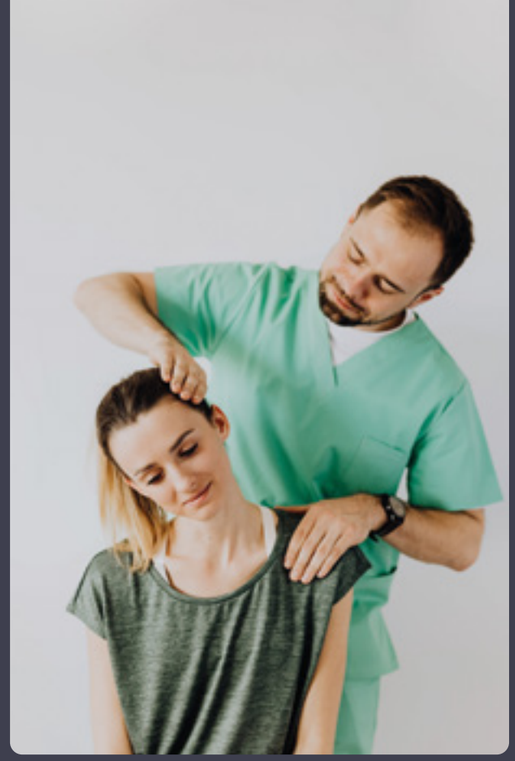
Double staff, reduce effort?
The **VELUSJET®** becomes your **most efficient employee**:

+ Simultaneous treatment of patients
+ Minimal supervision effort
+ Easy and intuitive operation



Targeted **interventions** can treat **pain points** to relieve pain in **specific areas** of the body.

VELUSJET®



No unique market offer compared to the competition?

Competitors are poaching your customers, but you're unsure how to **stand out**?

+ Convincing USP with wow-factor
+ Competitive advantage in the medical as well as wellness sector
+ Stand out without extra effort

Is customer loyalty hard in your branch?

Does **satisfying patients in your clinic** seem impossible? In the gym, is **customer contact rather impersonal**?

+ Customers book out of curiosity
+ Customers stay because they are satisfied
+ Effective in any related branch

The knob control

VELUS JET®

VARIANTS OF PURE EFFICIENCY.

Each option **is profitable.** But **depending on your needs**, we can respond to you **individually**:

Do you need...

The NFC cards?

+ Sales stimulating card display
+ Little explanation required & quick selection
+ Massages interchangeable according to season, occasions, etc.

Discover the NFC card function.

The touch panel?

+ No further tools are necessary
+ Can be operated with closed eyes
+ Self-explanatory

The magic of the touch panel.

The voice output?

+ No further tools are necessary
+ Can be operated with closed eyes
+ Self-explanatory

Operation via speech.

Discover the **opportunities** of the **different options**.

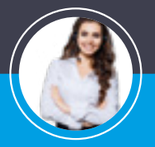
Scan the QR code and discover the opportunities on smartphone.

BECAUSE THE CALCULATION WORKS.

How quick the **investment** will **pay off for you**?
If **your customers use** the hydrojet only **2 hours** per day, this is how it works with average **pricing**:

Buy now ... | ... in a short time | ... afterwards

Best price-performance ratio | **Amortization** | **Profit**



Would you like a calculation for your individual circumstances in detail?

Investment with vision:

The **VELUSJET®** models are **modular**. An **upgrade** can be performed at **any time** and **additional functions** can be **added** without limitation.

VELUSJET®

STARTING OUT ON A SECURE BASIS.

Why the **VELUSJET®** and not any other hydrojet? **Because our expertise** - from software development to in-house production - brings out **the best** in the hydrojet concept. **Among other things, these special features set us apart from the rest of the market**:

Technical data	Value
Compact dimensions (L x W x H)	2.130 x 1.037 x 530 mm
Weight empty	**165 kg**
Weight filled	495 kg
Large lying surface made of natural rubber	**1.950 x 810 mm**
Entry page and head page freely selectable	Yes
Convenient device ventilation	**Yes**
Amount of water	330 Liter
Number of pumps	**2**
Control of the pumps	separated (left / right)
Pump performance	**2 x 7,4 bar**
Infinitely variable pressure control using FU technology	Yes
Jet carriage made of high-quality metal	**Yes**
Nozzle arms made of high-quality metal	Yes
Control of the nozzle arms	**separated (left / right)**
High-quality aluminium-chassis with running gear and height adjustment	Yes
LAN interface	**Yes**
Interface for billing systems	Yes
Interface for devices (e.g. light and music)	**Yes**
Integrated heating	Yes
Water temperature	**18°C – 40°C adjustable**
Max. Patient weight	210 kg
Max. duration	**60 min**
Connection / protection	220 – 240 V / Individually with a backup 16 A (RCD)
Certified medical device	**Class IIa**
EMV tested	Yes
CE marking	**Yes**

Free positioning

Because the **VELUSJET®** design looks attractive from all sides and the connections are **always accessible**, the **layout of your room** does not matter.

2 separately controlled jets

The **VELUSJET®** is the only hydrojet with separate **pressure and motion control** for the left and right sides of the body.

Experience the jets up close.

7.4 bar pumps (2 pieces)

More powerful than other **systems on the market**, our hydrojet works with a pleasant and, above all, **effective pressure**.

See pumps in action.

Smart Cooling

The device **protects itself** from overheating: **energy-saving** and without further **water supply**.

Robust materials

Where others **use plastic**, we focus on **quality** and **durability**.

LAN connection

Thanks to **Internet connection**, we can check **the device** for you **remotely** at any time for service purposes.

Play remote maintenance video.

VELUSJET®

INSIGHTS INTO YOUR FUTURE SUCCESS.

All the benefits you read about in this brochure are based **on proven facts**, experience and success stories.

For example, our customers say the following:

Scan the QR code and watch the customer testimonial video.

„The VelusJet® is definitely different from the devices I knew before.“

At Picard doctor's office, the bed is used to treat pain, tension and discomfort. The result:

+ Visible therapeutic successes accompanying drug therapy
+ In use three to six times a day
+ Repeatedly booked by patients

„The combination of wellness and training just fits into the concept.“

Sportsclub4 is happy to have a much more pleasant atmosphere in the gym. Because guests no longer just complete their work out quickly, but linger and relax:

+ Guests use the massage for back pain, headaches and tension after work out
+ In use five to ten times a day
+ Users consistently report a lasting, positive effect

Scan the QR code and watch the customer testimonial video.

„We have no work with it at all. The VelusJet is uniquely easy to operate.“

The Parkhotel Bielefeld Milser Krug has invested in the VELUSJET® following recommendations from its employees. A good decision, as it turns out:

+ Extension of benefits for guests of the hotel
+ Smooth integration of the bed into the daily routine
+ More freedom in capacity & scheduling

Scan the QR code and watch the customer testimonial video.

Scan the QR code and watch the customer testimonial video.

„The advantage is: We can effectively tailor everything to the patient.“

Physiotherapy Wiesenhof is specialised in sports physiotherapy. Here, patients use the VELUSJET® following treatment:

+ Holistic concept for the healing of sports injuries
+ Customized treatment measures through 2-pump technology
+ The customers and the employees show great interest in the new possibilities
