About

SEERS Medical are the leading UK manufacturer of medical examination couches and physiotherapy treatment tables.

Based in Suffolk, England, **SEERS** was founded by Simon Rees and business partner Keith Chittock in 2008. Since incorporation, Simon's wife, Jane, and their two sons, Tom and Dann, have played important parts in driving the family business forwards.

Using state-of-the-art technology and decades of experience in Computer-Aided Design (CAD), **SEERS** design, prototype and manufacture products from the 5-acre site in Debenham, Suffolk. Our quality management system is accredited to ISO 13485, a standard specific to the design & manufacture of medical devices.

SEERS Medical's product range features a wide variety of patient positioning equipment, for both the clinical and rehabilitation environments, suitable for the global healthcare market. Through a diverse distributor network, **SEERS** products are in use in over 100 countries around the world, in every continent except Antarctica!

In this edition of the **SEERS** Medical Product Catalogue, you will find all of the products designed & manufactured by **SEERS** Medical, available for sale to the global healthcare market.

Safety

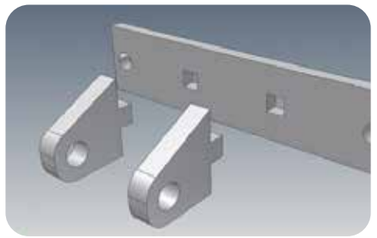
Mechanical Safety & Load Testing
All **SEERS** Medical products have been tested to the applicable EN 60601-1:2006+A12:2014 (E) the General requirements for basic safety and essential performance. Our treatment couches are tested to 2.5x safe working load (in excess of 600kg loaded evenly, for in excess of one hour, to prove load support capability without failure). Products are tested in accordance to Clauses 9.8.3.2-3 Static Forces of EN60601-1:2006. Our products also lift the rated safe working load from the minimum height to the maximum height smoothly.

Electrical Safety
All **SEERS** Medical products comply to EN 60601-1:2006+A12:2014 (E), the general requirements for basic safety and essential performance. In addition, the actuation and control systems used on our products are marked with the UL mark, demonstrating compliance to UL60601-1 and CAN/CSA-C22.2 No. 601.1-M90, meeting the requirements for USA and Canada. The actuation control system is also marked with approval to C-ETL-US No. 3154358.

CE Marking & Quality System
SEERS Medical operates a Quality Management System in accredited and approved to ISO 13485:2016. **SEERS** Medical products comply with the Essential Requirements in Annex I of EC Directive 93/42/EC, with all relevant design, production records, risk assessments, product testing and labelling information recorded in the documentation file labelled the "Technical File". All products carry a unique serial number for traceability of date of manufacture, model number and associated build records.

Flammability
The upholstered couch sections satisfies flammability requirements to the standards of BS 7176:1995 (medium hazard) using ignition sources 0 (cigarette), 1 (gas) as defined in BS EN. 1921-1 and 2 and 5 (crib) BS 5852:1990.

Warranty
The variable height couches detailed in this document have a lifetime frame warranty and five years warranty on all other components, excluding upholstered items.



Interlocking structural components

Robotic welding of metal framework

Infection Prevention

Easy Clean Upholstery
Many of our treatment couches & seating products are manufactured with the 'Easy Clean Upholstery' system, meaning upholstery is both seamless and stapleless, sealed by a hard plastic backing which is easier to wipe than traditional hessian backing.

Utilising materials used in the automotive industry, the upholstery backing is also much harder-wearing and, therefore, longer-lasting.

This feature is design registered with the Intellectual Property Office and is unique to **SEERS** Medical.

Look for the EASY CLEAN symbol to show which products are fitted with Easy Clean Upholstery.

Hinge Covers
On all couches except the Sterling Range, between each upholstery section is a vinyl cover, which protects the hinge pins which allow the sections to be angle-adjustable. This prevents hinges from seizing, and prolongs the time period required between proactive/preventative maintenance.

Not only is this an engineering benefit, but it also prevents any spills/liquids from seeping down onto the frame of the treatment couch, and instead catches the liquid on an anti-bacterial and waterproof vinyl material.

Colours

The Standard and Standard+ feature a range of upholstery vinyl colours that are anti-bacterial, waterproof and abrasion resistant to 150,000 cycles (Martindale test).

All upholstered items are available in any of our five standard colours.

Sky Blue

Canard

Dark Blue

Dark Grey

Black

The **Standard+** colour range is available at an additional cost for all Medicare, Therapy, Innovation and CLINNOVA Range products, excluding Shower Trolleys.

White

Light Grey

Cream

Olive

Lotus Green

Pepper

Brown

Poterie

Red

Burgundy

Don't see the colour you need? If you need a specific vinyl colour, let us know and we'll do all we can to help.

Net Zero by 2045

In 2024, **SEERS** Medical conducted a comprehensive audit of its carbon emissions, separated out into 3 different scopes based on the ability to affect or control the emissions.

As a result of the audit, a carbon reduction plan was put in place. **We have committed to be Net Zero by 2045.**

To help us get there, we have installed 450 solar panels, which will produce an estimated 153,864 kWh of clean electricity per year.

We also have an electrification programme in place to move as many commercial vehicles to electric battery power as possible, and will continually work with our suppliers to promote environmentally-friendly practices and reduce indirect carbon emissions.

Find out more about our carbon reduction plan on our website - www.seersmedical.com/sustainability

2 Section - Examination Couches

Sterling 2 Section - Electric

Electric with gas assisted backrest, 200kg safe working load with 100mm independent castors.

Model: SX2007

Medicare 2 Section - Hydraulic

Hydraulic with gas assisted backrest, 240kg safe working load with 75mm retractable castors.

Model: SM2550

Medicare 2 Section - Electric

Electric with gas assisted backrest, 240kg safe working load with 75mm retractable castors.

Model: SM2560

Medicare 2 Section - Electric/Electric

Electric with electric backrest, 240kg safe working load with 75mm retractable castors.

Model: SM2570

CLINNOVA Clinical 2 - Hydraulic

Hydraulic with gas assisted backrest, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder.

Model: NV2550-CLS or NV2550-PRM

CLINNOVA Clinical 2 - Electric

Electric with gas assisted backrest, 265kg safe working load with 75mm linked retractable castors. Raises from low to high in 15s, includes paper roll holder.

Model: NV2560-CLS or NV2560-PRM

CLINNOVA Clinical 2 - Electric/Electric

Electric with electric backrest, 265kg safe working load with 75mm linked retractable castors. Raises from low to high in 15s, includes paper roll holder.

Model: NV2570-CLS or NV2570-PRM

3 Section - Examination Couches

Sterling 3 Section - Electric

Electric with gas assisted head & foot sections, 200kg safe working load with 100mm independent castors.

Model: SX3008

Medicare 3 Section - Hydraulic

Hydraulic with gas assisted head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: SM3550

Medicare 3 Section - Electric

Electric with gas assisted head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: SM3560

Medicare 3 Section - Electric/Electric

Electric with electric foot section and gas assisted head section, 240kg safe working load with 75mm retractable castors.

Model: SM3570

CLINNOVA Clinical 3 - Hydraulic

Hydraulic with gas assisted head & foot sections, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder.

Model: NV3550-CLS or NV3550-PRM

CLINNOVA Clinical 3 - Electric

Electric with gas assisted head & foot sections, 265kg safe working load with 75mm linked retractable castors. Raises from low to high in 15s, includes paper roll holder.

Model: NV3560-CLS or NV3560-PRM

CLINNOVA Clinical 3 - Fully Electric

Electric with electric head & foot sections, 265kg safe working load with 75mm linked retractable castors. Raises from low to high in 15s, includes paper roll holder.

Model: NV3570-CLS or NV3570-PRM

2 Section - Mobile Treatment Couches

Medicare Mobile 2 Section - Hydraulic

Hydraulic with gas assisted backrest, 240kg safe working load with 125mm independent castors. Side Rails & Paper Roll Holder included as standard.

Model: SM2450

Medicare Mobile 2 Section - Hydraulic

Hydraulic with gas assisted backrest, 240kg safe working load with 125mm central locking castors. Includes paper roll holder & side rails.

Model: SM2650

Medicare Mobile 2 Section - Electric

Electric with gas assisted backrest, 240kg safe working load with 125mm central locking castors. Includes paper roll holder & side rails.

Model: SM2660

Medicare Mobile 2 Section - Elec/Elec

Electric with electric backrest, 240kg safe working load with 125mm central locking castors. Includes paper roll holder & side rails.

Model: SM2670

CLINNOVA Mobile 2 - Hydraulic, IBC

Hydraulic with gas assisted backrest, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Independently braking castors.

Model: NV2450-CLS or NV2450-PRM

CLINNOVA Mobile 2 - Hydraulic, LMWD

Hydraulic with gas assisted backrest, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Central locking castors.

Model: NV2650-CLS or NV2650-PRM

CLINNOVA Mobile 2 - Electric

Electric with gas assisted backrest, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Central locking castors. Raises from low to high in 15s.

Model: NV2660-CLS or NV2660-PRM

CLINNOVA Mobile 2 - Electric/Electric

Electric with electric backrest, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Central locking castors. Raises from low to high in 15s.

Model: NV2670-CLS or NV2670-PRM

3 Section - Mobile Treatment Couches

Medicare Mobile 3 Section - Hydraulic

Hydraulic with gas assisted head & foot sections, 240kg safe working load with 125mm independent castors. Side Rails & Paper Roll Holder included as standard.

Model: SM3450

Medicare Mobile 3 Section - Hydraulic

Hydraulic with gas assisted head & foot sections, 240kg safe working load with 125mm central locking castors. Includes paper roll holder & side rails.

Model: SM3650

Medicare Mobile 3 Section - Electric

Electric with gas assisted head & foot sections, 240kg safe working load with 125mm central locking castors. Includes paper roll holder & side rails.

Model: SM3660

Medicare Mobile 3 Section - Elec/Elec

Electric with electric foot section & gas assisted head section, 240kg safe working load with 125mm central locking castors. Includes paper roll holder & side rails.

Model: SM3670

CLINNOVA Mobile 3 - Hydraulic, IBC

Hydraulic with gas assisted head & foot sections, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Independently braking castors.

Model: NV3450-CLS or NV3450-PRM

CLINNOVA Mobile 3 - Hydraulic, LMWD

Hydraulic with gas assisted head & foot sections, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Central locking castors.

Model: NV3650-CLS or NV3650-PRM

CLINNOVA Mobile 3 - Electric

Electric with gas assisted head & foot sections, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Central locking castors. Raises from low to high in 15s.

Model: NV3660-CLS or NV3660-PRM

CLINNOVA Mobile 3 - Fully Electric

Electric with electric head & foot sections, 265kg safe working load with 75mm linked retractable castors. Includes paper roll holder & side rails. Central locking castors. Raises from low to high in 15s.

Model: NV3670-CLS or NV3670-PRM

2 & 3 Section - Therapy Couches

Therapy 2 Section - Standard, Hydraulic

Hydraulic with gas assisted standard head section, 240kg safe working load with 75mm retractable castors.

Model: ST2557

CLINNOVA Therapy 2 - Standard, Hydraulic

Hydraulic with gas assisted standard head section, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole.

Model: NV2557-CLS or NV2557-PRM

Therapy 3 Section - Standard, Hydraulic

Hydraulic with gas assisted standard head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: ST3557

CLINNOVA Therapy 3 - Standard, Hydraulic

Hydraulic with gas assisted standard head & foot sections, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole.

Model: NV3557-CLS or NV3557-PRM

Therapy 2 Section - Standard, Electric

Electric with gas assisted standard head section, 240kg safe working load with 75mm retractable castors.

Model: ST2567

CLINNOVA Therapy 2 - Standard, Electric

Electric with gas assisted standard head section, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole. Raises low to high in 15s.

Model: NV2567-CLS or NV2567-PRM

Therapy 3 Section - Standard, Electric

Electric with gas assisted standard head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: ST3567

CLINNOVA Therapy 3 - Standard, Electric

Electric with gas assisted standard head & foot sections, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole. Raises low to high in 15s.

Model: NV3567-CLS or NV3567-PRM

2 & 3 Section - Therapy Couches

Therapy 2 Section - Basic, Hydraulic

Hydraulic with gas assisted basic head section, 240kg safe working load with 75mm retractable castors.

Model: ST2558

CLINNOVA Therapy 2 - Basic, Hydraulic

Hydraulic with gas assisted basic head section, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole.

Model: NV2558-CLS or NV2558-PRM

Therapy 3 Section - Basic, Hydraulic

Hydraulic with gas assisted basic head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: ST3558

CLINNOVA Therapy 3 - Basic, Hydraulic

Hydraulic with gas assisted basic head & foot sections, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole.

Model: NV3558-CLS or NV3558-PRM

Therapy 2 Section - Basic, Electric

Electric with gas assisted basic head section, 240kg safe working load with 75mm retractable castors.

Model: ST2568

CLINNOVA Therapy 2 - Basic, Electric

Electric with gas assisted basic head section, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole. Raises low to high in 15s.

Model: NV2568-CLS or NV2568-PRM

Therapy 3 Section - Basic, Electric

Electric with gas assisted basic head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: ST3568

CLINNOVA Therapy 3 - Basic, Electric

Electric with gas assisted basic head & foot sections, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole. Raises low to high in 15s.

Model: NV3568-CLS or NV3568-PRM

2 & 3 Section - Therapy Couches

Therapy 2 Section - Plus, Hydraulic

Hydraulic with gas assisted plus head section, 240kg safe working load with 75mm retractable castors.

Model: ST2559

CLINNOVA Therapy 2 - Plus, Hydraulic

Hydraulic with gas assisted plus head section, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole.

Model: NV2559-CLS or NV2559-PRM

Therapy 3 Section - Plus, Hydraulic

Hydraulic with gas assisted plus head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: ST3559

CLINNOVA Therapy 3 - Plus, Hydraulic

Hydraulic with gas assisted plus head & foot sections, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole.

Model: NV3559-CLS or NV3559-PRM

Therapy 2 Section - Plus, Electric

Electric with gas assisted plus head section, 240kg safe working load with 75mm retractable castors.

Model: ST2569

CLINNOVA Therapy 2 - Plus, Electric

Electric with gas assisted plus head section, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole. Raises low to high in 15s.

Model: NV2569-CLS or NV2569-PRM

Therapy 3 Section - Plus, Electric

Electric with gas assisted plus head & foot sections, 240kg safe working load with 75mm retractable castors.

Model: ST3569

CLINNOVA Therapy 3 - Plus, Electric

Electric with gas assisted plus head & foot sections, 265kg safe working load with 75mm linked retractable wheels. Unobstructed breathing hole. Raises low to high in 15s.

Model: NV3569-CLS or NV3569-PRM

Changing & Hygiene Tables - Electric

Sterling Changing Table - Electric, 152cm

Electric single section surface, 152cm length, 200kg safe working load with 100mm independently braking castors. Side rails included

Model: SX1047

Therapy Hygiene Table - Electric, 152cm

Electric single section surface, 152cm length, 240kg safe working load with 75mm retractable wheels.

Model: ST1561B

CLINNOVA Hygiene - Electric, 125cm

Hydraulic single section surface, 125cm length, 265kg safe working load with 75mm linked retractable wheels. Includes side rails. Raises from low to high in 15s.

Model: NV1561C-CLS or NV1561C-PRM

CLINNOVA Hygiene - Electric, 155cm

Hydraulic single section surface, 155cm length, 265kg safe working load with 75mm linked retractable wheels. Includes side rails. Raises from low to high in 15s.

Model: NV1561B-CLS or NV1561B-PRM

Sterling Changing Table - Electric, 184cm

Electric single section surface, 184cm length, 200kg safe working load with 100mm independently braking castors. Side rails included

Model: SX1057

Therapy Hygiene Table - Electric, 186cm

Electric single section surface, 186cm length, 240kg safe working load with 75mm retractable wheels.

Model: ST1561A

CLINNOVA Hygiene - Electric, 190cm

Electric single section surface, 190cm length, 265kg safe working load with 75mm linked retractable wheels. Includes side rails.

Model: NV1561A-CLS or NV1561A-PRM

CLINNOVA Hygiene - Electric, 190cm

Electric single section surface, 190cm length, 265kg safe working load with 125mm central locking castors. Includes side rails.

Model: NV1661A-CLS or NV1661A-PRM

Changing & Hygiene Tables - Hydraulic

Therapy Hygiene Table - Hydraulic, 152cm

Hydraulic single section surface, 152cm length, 240kg safe working load with 75mm retractable wheels.

Model: ST1551B

CLINNOVA Hygiene - Hydraulic, 125cm

Hydraulic single section surface, 125cm length, 265kg safe working load with 125mm independently braking castors. Includes side rails.

Model: NV1451C-CLS or NV1451C-PRM

CLINNOVA Hygiene - Hydraulic, 155cm

Hydraulic single section surface, 155cm length, 265kg safe working load with 125mm independently braking castors. Includes side rails.

Model: NV1451B-CLS or NV1451B-PRM

CLINNOVA Hygiene - Hydraulic, 190cm

Hydraulic single section surface, 190cm length, 265kg safe working load with 125mm independently braking castors. Includes side rails.

Model: NV1451A-CLS or NV1451A-PRM

Therapy Hygiene Table - Hydraulic, 186cm

Hydraulic single section surface, 186cm length, 240kg safe working load with 75mm retractable wheels.

Model: ST1551A

CLINNOVA Hygiene - Hydraulic, 125cm

Hydraulic single section surface, 125cm length, 265kg safe working load with 75mm linkedretractable wheels. Includes side rails.

Model: NV1551C-CLS or NV1551C-PRM

CLINNOVA Hygiene - Hydraulic, 155cm

Hydraulic single section surface, 155cm length, 265kg safe working load with 75mm linked retractable wheels. Includes side rails.

Model: NV1551B-CLS or NV1551B-PRM

CLINNOVA Hygiene - Hydraulic, 190cm

Hydraulic single section surface, 190cm length, 265kg safe working load with 75mm linked retractable wheels. Includes side rails.

Model: NV1551A-CLS or NV1551A-PRM

Specialist Treatment Couches - Vertical Lifting

Innovation Deluxe 2 Section - IBC

Fully electric 2 section couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm individually braking castors, 250kg safe working load. Includes paper roll holder and head support cushion.

Model: MG2475

Innovation Deluxe 3 Section - IBC

Fully electric 2 section couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm independently braking castors, 250kg safe working load. Includes paper roll holder and head support cushion.

Model: MG3475

Innovation Deluxe Daycare - IBC

Fully electric couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm independently braking castors, 250kg safe working load. Includes paper roll holder and padded side rails,

Model: MG3493

Innovation Deluxe Dialysis - IBC

Fully electric couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm independently braking castors, 250kg safe working load. Includes paper roll holder and armrests.

Model: MG3490

Innovation Deluxe 2 Section - LMWD

Fully electric 2 section couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm central locking castors, 250kg safe working load. Includes paper roll holder and head support cushion.

Model: MG2675

Innovation Deluxe 3 Section - LMWD

Fully electric 3 section couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm central locking castors, 250kg safe working load. Includes paper roll holder and head support cushion.

Model: MG3675

Innovation Deluxe Daycare - LMWD

Fully electric couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm central locking castors, 250kg safe working load. Includes paper roll holder and padded side rails,

Model: MG3693

Innovation Deluxe Dialysis - LMWD

Fully electric couch with vertical lifting, CPR function and fully encapsulated base cover. 125mm central locking castors, 250kg safe working load. Includes paper roll holder and armrests.

Model: MG3690

Specialist Physiotherapy Couches

Therapy Deluxe - Standard, Single Leg

Electric 3 section with additional supporting frame under the foot section for additional rigidity. 240kg safe working load, perimeter foot switch included.

Model: ST3347

Therapy Deluxe - Plus, Split Leg

Electric 6 section with additional supporting frame under the foot section for additional rigidity. 240kg safe working load, perimeter foot switch included.

Model: ST3349S

Therapy Traction Table - Hydraulic

Hydraulic 4 section with rolling mid section and mount attachment for traction machine (not included). 240kg safe working load.

Model: ST6557

Therapy Drop End - Hydraulic

Hydraulic 3 section with 90º drop head section. 75mm retractable wheels, 240kg safe working load.

Model: ST3556

Therapy Deluxe Drainage - Standard, Single Leg

Electric 3 section with additional supporting frame under the foot section for additional rigidity. Tilting mid section. 240kg safe working load, perimeter foot switch included.

Model: ST3547

Therapy Deluxe Drainage - Plus, Split Leg

Electric 6 section with additional supporting frame under the foot section for additional rigidity. Tilting mid section. 240kg safe working load, perimeter foot switch included.

Model: ST3549S

Therapy Traction Table - Electric

Electric 4 section with rolling mid section and mount attachment for traction machine (not included). 240kg safe working load.

Model: ST6567

Therapy Drop End - Electric

Electric 3 section with 90º drop head section. 75mm retractable wheels, 240kg safe working load.

Model: ST3566

Mat Tables

Therapy Mat Table - Hydraulic

Hydraulic single section, 105cm or 125cm wide, 75mm retractable wheels with 250kg safe working load.

Model: ST5551 (105cm) or ST5551W (125cm)

Therapy Mat Table - Electric, 150cm

Electric single section, 150cm wide, 75mm retractable wheels with 250kg safe working load.

Model: ST5561L

Therapy Mat Table - Electric

Electric single section, 105cm or 125cm wide, 75mm retractable wheels with 250kg safe working load.

Model: ST5561 (105cm) or ST5561W (125cm)

Bobath Couches

Therapy Bobath - Hydraulic

Hydraulic 2 section with gas assisted head section, 105cm or 125cm wide. 75mm retractable wheels with 250kg safe working load.

Model: ST4552 (105cm) or ST4552W (125cm)

Therapy Bobath - Electric

Electric 2 section with gas assisted head section, 105cm or 125cm wide. 75mm retractable wheels with 250kg safe working load.

Model: ST4562 (105cm) or ST4562W (125cm)

Therapy Bobath - Electric/Electric

Electric 2 section with electric head section, 105cm or 125cm wide. 75mm retractable wheels with 250kg safe working load.

Model: ST4542 (105cm) or ST4542W (125cm)

Therapy Deluxe Bobath

Electric 2 section with electric head section, 105cm or 125cm wide. 125mm central locking wheels with 325kg safe working load.

Model: ST4642 (105cm) or ST4642W (125cm)

Bariatric Couches

Medicare Bariatric 2 Section - RWD

Electric with electric head section, 80cm wide upholstery. 75mm retractable wheels with 325kg safe working load.

Model: SM2573

Medicare Bariatric 2 Section - RWD

Electric with electric head section, 105cm wide easy clean upholstery. 75mm retractable wheels with 325kg safe working load.

Model: SM4542

Medicare Bariatric 3 Section - RWD

Electric with electric head & foot section, 80cm wide upholstery. 75mm retractable wheels with 325kg safe working load.

Model: SM3573

Medicare Bariatric Drop End - Single

Electric with electric head & foot section, 85cm wide upholstery. 90º drop foot section. 75mm retractable wheels with 325kg safe working load.

Model: SM3583

Medicare Bariatric 2 Section - LMWD

Electric with electric head section, 80cm wide upholstery. 125mm central locking castors with 325kg safe working load.

Model: SM2673

Medicare Bariatric 2 Section - LMWD

Electric with electric head section, 105cm wide easy clean upholstery. 125mm central locking castors with 325kg safe working load.

Model: SM4642

Medicare Bariatric 3 Section - LMWD

Electric with electric head & foot section, 80cm wide upholstery. 125mm central locking castors with 325kg safe working load.

Model: SM3673

Medicare Bariatric Drop End - Dual

Electric with electric head & dual foot sections, 85cm wide upholstery. 90º drop foot section. 75mm retractable wheels with 325kg safe working load. Shown with extra thick foam.

Model: SM3584

Multi-Purpose Examination Couches

Medicare Multi-Couch - Hydraulic

Hydraulic with gas assisted backrest and 90º drop foot section, 75mm retractable wheels with 240kg safe working load.

Model: SM9556

CLINNOVA Ultra 1 - Hydraulic

Hydraulic with gas assisted backrest and 90º drop foot section, 75mm linked retractable wheels with 265kg safe working load.

Model: NV9556-CLS or NV9556-PRM

Medicare Multi-Couch - Electric

Electric with gas assisted backrest and 90º drop foot section, 75mm retractable wheels with 240kg safe working load.

Model: SM9566

CLINNOVA Ultra 1 - Electric

Electric with gas assisted backrest and 90º drop foot section, 75mm linked retractable wheels with 265kg safe working load.

Model: NV9566-CLS or NV9566-PRM

Medicare Orthopaedic - Hydraulic

Hydraulic with gas assisted backrest, 90º drop gas assisted foot sections. 75mm retractable wheels with 240kg safe working load.

Model: SM5555

CLINNOVA Versa 1 - Hydraulic

Hydraulic with gas assisted backrest and 90º drop foot sections, 75mm linked retractable wheels with 265kg safe working load. Side loops included.

Model: NV0555-CLS or NV0555-PRM

Medicare Orthopaedic - Electric

Electric with gas assisted backrest, 90º drop gas assisted foot sections. 75mm retractable wheels with 240kg safe working load.

Model: SM5565

CLINNOVA Versa 1 - Electric

Electric with gas assisted backrest and 90º drop foot section, 75mm linked retractable wheels with 265kg safe working load. Side loops included.

Model: NV0565-CLS or NV0565-PRM

Multi-Purpose Examination Couches

Medicare Multi-Couch - Electric/Electric

Electric with gas assisted backrest and 90º drop foot section, 75mm retractable wheels with 240kg safe working load.

Model: SM9576

CLINNOVA Ultra 2 - Electric/Electric

Electric with electric backrest and 90º drop foot section, 75mm linked retractable wheels with 265kg safe working load.

Model: NV9556-CLS or NV9556-PRM

Medicare Podiatry Couch

Electric with electric backrest and 90º drop foot sections, 75mm retractable wheels with 240kg safe working load. Fold-down armrests included. Head Cushion sold separately.

Model: SM0575

Medicare Podiatry Couch with Tilt

Electric with electric backrest and 90º drop foot sections. Trendelenburg tilt to -15º, 75mm retractable wheels with 240kg safe working load. Fold-down armrests included.

Model: SM0585

Medicare Orthopaedic - Electric/Electric

Electric with electric backrest, 90º drop gas assisted foot sections. 75mm retractable wheels with 240kg safe working load.

Model: SM5575

CLINNOVA Versa 2 - Electric/Electric

Electric with electric backrest and 90º drop foot sections, 75mm linked retractable wheels with 265kg safe working load. Side loops included.

Model: NV0555-CLS or NV0555-PRM

Medicare Orthopaedic Couch with Tilt

Electric with electric backrest, 90º drop gas assisted foot sections. 75mm retractable wheels with 240kg safe working load.

Model: SM5585

CLINNOVA Versa Pro

Fully electric including individual foot sections, tilt to +/-15º, vertical lifting, CPR function and digital display handset. Linked 75mm retractable wheels with 285kg safe working load.

Model: NV0595-CLS or NV0595-PRM

Scanning & Imaging Couches

Medicare Ultrasound - Gas Assisted Foot

Electric with electric backrest, gas assisted foot section. Trendelenburg tilt to -15º. 75mm retractable wheels with 240kg safe working load.

Model: SM9686

Medicare Ultrasound - Electric Foot

Electric with electric backrest and foot section. Trendelenburg tilt to -15º. 75mm retractable wheels with 240kg safe working load.

Model: SM9696

CLINNOVA Ultra Pro - RWD

Fully electric, tilt to +/-15º, vertical lifting, CPR function and digital display handset. Linked 75mm retractable wheels with 285kg safe working load.

Model: NV9596-CLS or NV9596-PRM

CLINNOVA Ultra Pro - LMWD

Fully electric, tilt to +/-15º, vertical lifting, CPR function and digital display handset. Linked 125mm central locking castors with 285kg safe working load.

Model: NV9696-CLS or NV9696-PRM

Medicare Echocardiography - RWD

Electric with electric backrest & gas assisted foot section, Trendelenburg tilt to +/-15º, 75mm retractable wheels with 240kg safe working load. Grab handle, head cushion, paper roll holder, foot plate & stool included.

Model: SM3590

Medicare Echocardiography - LMWD

Electric with electric backrest & gas assisted foot section, Trendelenburg tilt to +/-15º, 125mm central locking wheels with 240kg safe working load. Grab handle, head cushion, paper roll holder, foot plate & stool included.

Model: SM3690

2 Section Tilt Table - Gas Assisted Backrest

Electric with electric tilt from 0 to 90º, gas assisted head section, 125mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included. Choice of single or divided leg section.

Model: ST7647 or ST7647DL

2 Section Tilt Table - Electric Backrest

Electric with electric tilt from 0 to 90º, electric head section, 125mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included. Choice of single or divided leg section.

Model: ST7649 or ST7647DL

Tilt Tables

Standard Tilt Table - Single Leg

Electric with electric tilt from 0 to 90º, 125mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included.

Model: ST7641

Standard Tilt Table - Divided Leg

Electric with electric tilt from 0 to 90º, 125mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included.

Model: ST7641DL

Tilt Table Pro - Single Leg

Electric with electric tilt from 0 to 90º in 15 seconds, 150mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included. Display handset with programmable positions.

Model: ST7645

Tilt Table Pro - Divided Leg

Electric with electric tilt from 0 to 90º in 15 seconds, 150mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included. Display handset with programmable positions.

Model: ST7645DL

Paediatric Tilt Table - IBC

Electric with electric tilt from 0 to 90º, 125mm independently braking castors with 200kg safe working load. Harness set and handgrips included.

Model: ST7650

Paediatric Tilt Table - LMWD

Electric with electric tilt from 0 to 90º, 125mm central locking castors with 200kg safe working load. Harness set and handgrips included.

Model: ST7651

2 Section Tilt Table - Single Leg

Electric with electric tilt from 0 to 90º, 125mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included. Choice of gas assisted or electric head section.

Model: ST7647 or ST7649

2 Section Tilt Table - Divided Leg

Electric with electric tilt from 0 to 90º, 125mm central locking wheels with 225kg safe working load. Harness set, handgrips and work table included. Choice of gas assisted or electric head section.

Model: ST7647DL or ST7649DL

Shower Trolleys

Adult Shower Trolley - Hydraulic

Hydraulic shower trolley, 125cm central locking castors. PVC liner & cushion. Stainless steel fixings and integral drainage hose.

Model: ST7700

Adult Shower Trolley - Battery Operated

Electric shower trolley with 2 rechargeable batteries, 125cm central locking castors. PVC liner & cushion. Stainless steel fixings and integral drainage hose.

Model: ST7800

Gynaecology Couches

Medicare Gynaecology - Hydraulic

Hydraulic with gas assisted backrest, 75mm retractable wheels with 240kg safe working load. Leg supports, side loops and paper roll holder included.

Model: SM8553

Medicare Gynaecology - Electric

Electric with gas assisted backrest, 75mm retractable wheels with 240kg safe working load. Leg supports, side loops and paper roll holder included.

Model: SM8563

Medicare Gynaecology - Electric/Electric

Electric with electric backrest, 75mm retractable wheels with 240kg safe working load. Leg supports, side loops and paper roll holder included.

Model: SM8573

Medicare Gynaecology with Tilt

Electric with electric backrest, Trendelenburg tilt to -15º, 75mm retractable wheels with 240kg safe working load. Leg supports, side loops and paper roll holder included.

Model: SM8583

CLINNOVA Gynae 1 - Hydraulic

Hydraulic with gas assisted backrest, 75mm linked retractable wheels with 265kg safe working load. Leg supports, side loops and paper roll holder included.

Model: NV8553-CLS or NV8553-PRM

CLINNOVA Gynae 1 - Electric

Electric with gas assisted backrest, 75mm linked retractable wheels with 265kg safe working load. Leg supports, side loops and paper roll holder included.

Model: NV8563-CLS or NV8563-PRM

CLINNOVA Gynae 2 - Electric/Electric

Electric with electric backrest, 75mm linked retractable wheels with 265kg safe working load. Leg supports, side loops and paper roll holder included.

Model: SM8583D (removable) or SM8593D (fold-down)

Medicare GP Gynae

Electric with electric mid (backrest) section, tilt to -15º. 75mm retractable wheels, 240kg safe working load. Lithotomy stirrups & paper roll holder included.

Model: SM8543

Gynaecology Couches

Medicare Deluxe Gynae - Removable

Electric with electric backrest, tilt to -15º, 75mm retractable wheels with 240kg safe working load. Leg supports, base cover, side loops, paper roll holder and removable extension included.

Model: SM8583D

Medicare Deluxe Gynae - Fold-Down

Electric with electric backrest, tilt to -15º, 75mm retractable wheels with 240kg safe working load. Leg supports, base cover, side loops, paper roll holder and fold-down extension included.

Model: SM8593D

CLINNOVA Gynae Pro - RWD

Fully electric, tilt to +/-15º, vertical lifting, CPR function and digital display handset. Linked 75mm retractable wheels with 285kg safe working load.

Model: NV8583-CLS or NV8583-PRM

CLINNOVA Gynae Pro - LMWD

Fully electric, tilt to +/-15º, vertical lifting, CPR function and digital display handset. 125mm central locking castors with 285kg safe working load.

Model: NV8683-CLS or NV8683-PRM

Phlebotomy Couches

Medicare Phlebotomy - Hydraulic

Hydraulic with gas assisted backrest and footrest, 75mm retractable wheels with 240kg safe working load. Armrests, side loops and paper roll holder included.

Model: SM9556P

Medicare Phlebotomy - Electric

Electric with gas assisted backrest and footrest, 75mm retractable wheels with 240kg safe working load. Armrests, side loops and paper roll holder included.

Model: SM9576P

Medicare Phlebotomy - Electric/Electric

Electric with electric backrest and gas assisted footrest, 75mm retractable wheels with 240kg safe working load. Armrests, side loops and paper roll holder included.

Model: SM9576P

Medicare Phlebotomy with Tilt

Electric with electric backrest and gas assisted footrest, tilt to -15º, 75mm retractable wheels with 240kg safe working load. Armrests, side loops and paper roll holder included.

Model: SM9586P

CLINNOVA Phlebotomy 1 - Hydraulic

Hydraulic with gas assisted backrest, 75mm linked retractable wheels with 265kg safe working load. Leg supports, side loops and paper roll holder included.

Model: NV9556P-CLS or NV9556P-PRM

CLINNOVA Phlebotomy 1 - Electric

Electric with gas assisted backrest, 75mm linked retractable wheels with 265kg safe working load. Leg supports, side loops and paper roll holder included.

Model: NV9566P-CLS or NV9566P-PRM

CLINNOVA Phlebotomy 2 - Elec/Elec

Electric with electric backrest, 75mm linked retractable wheels with 265kg safe working load. Leg supports, side loops and paper roll holder included.

Model: NV9576P-CLS or NV9576P-PRM

CLINNOVA Phlebotomy Pro

Fully electric, tilt to +/-15º, vertical lifting, CPR function and digital display handset. Linked 75mm retractable wheels with 285kg safe working load.

Model: NV9596P-CLS or NV9596P-PRM

Patient Seating

Portman Chair - Standard

Front-steer portering chair with safe working load of 200kg. Ability to nest/stack, sliding foot plate and fold-up armrests.

Model: MC8000

Stowable Leg Support

A cushioned/upholstered leg support which can be used on either side and stowed at the bag of the chair using the integral storage bracket.

Model: 8010

Document Holder

For document storage behind the patient, with drainage holes for accidental spillages.

Model: 8013

Coin Lock System

Allows Portman chairs to be stacked/ nested and locked to one another.

Model: 8015

Patient Belongings Tray

Removable tray to hold patient belongings during transport.

Model: 8014

Oxygen Bottle Holder

Removable oxygen bottle holder to be fitted to integral brackets next to the patient armrests. Bottle not included.

Model: 8011

Telescopic IV Pole

Adjustable IV pole attachment which can be used on either side of the patient.

Model: 8012

Patient Seating

Phlebotomy Chair

Hydraulic phlebotomy chair with side support loops.
Choice of single or dual armrests.

Model: MC6154 (Single) or MC6155 (Dual)

Ophthalmology Chair

Mobile ophthalmology chair with height adjustable armrests and an adjustable headrest.

Model: MC6172

Economy Clinician/Therapist Seating

Operators Stool - Standard

Height adjustable round stool with ring mechanism, height range 45 to 59cm. Black base, shrouded gas lift and free roam castors.

Model: ST6103

Operators Chair - Standard

Height adjustable chair with adjustable backrest, height range 45 to 59cm. Black base, shrouded gas lift and free roam castors.

Model: ST6100

Economy Saddle Stool

Height adjustable stool, height range 45 to 59cm. Black base, shrouded gas lift and free roam castors.

Model: ST6144

Economy Dual Curve Stool

Height adjustable stool, height range 45 to 59cm. Black base, shrouded gas lift and free roam castors.

Model: ST6168

Operators Stool - High

Height adjustable round stool with ring mechanism, height range 54 to 74cm. Black base, foot support ring and static feet.

Model: ST6104

Operators Chair - High

Height adjustable chair with adjustable backrest, height range 54 to 74cm. Black base, foot support ring and static feet.

Model: ST6101

Economy Sonographers Chair

Height adjustable chair with adjustable backrest, height range 45 to 59cm. Ergonomic backrest design. Black base, shrouded gas lift and free roam castors.

Model: ST6140

Economy Keyhole-Shaped Stool

Height adjustable stool, height range 45 to 59cm. Black base, shrouded gas lift and free roam castors.

Model: ST6109

Ergonomic Medical Stools

Round Medical Stool - Standard

Height adjustable round stool with ring mechanism, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6164

Square Medical Stool - Standard

Height adjustable square stool with ring mechanism, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6166

Dual Curve Medical Stool - Standard

Height adjustable ergonomic stool with ring mechanism, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6168

Ergonomic Saddle Stool - Standard

Height adjustable saddle stool with seat tilt, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6144

Round Medical Stool - High

Height adjustable round stool with ring mechanism, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6165

Square Medical Stool - High

Height adjustable square stool with ring mechanism, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6167

Dual Curve Medical Stool - High

Height adjustable ergonomic stool with ring mechanism, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6169

Ergonomic Saddle Stool - High

Height adjustable saddle stool with seat tilt, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6145

Ergonomic Medical Stools

Polyurethane Lab Stool - Standard

Height adjustable polyurethane stool with ring mechanism, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6112

Polyurethane Lab Saddle - Standard

Height adjustable polyurethane saddle stool with seat tilt, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6113

Deluxe Saddle Stool

Height adjustable saddle stool with seat tilt, height range 48 to 59cm. Aluminium base, aluminium gas lift and chrome-capped free roam castors.

Model: MC6107

Multi-Procedures Stool - Standard

Height adjustable round stool with ring mechanism, height range 45 to 59cm. 360º swing arm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6162

Polyurethane Lab Stool - High

Height adjustable polyurethane stool with ring mechanism, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6115

Polyurethane Lab Saddle - High

Height adjustable polyurethane saddle stool with seat tilt, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6116

Proximity Stool

Height adjustable stool with flat edge, height range 45 to 59cm. Black base, black gas lift and static feet.

Model: MC6105

Multi-Procedures Stool - High

Height adjustable round stool with ring mechanism, height range 54 to 74cm. 360º swing arm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6163

Ergonomic Medical Chairs

Premium Operators Chair - Standard

Height adjustable chair with adjustable backrest, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: ST6150

Premium Operators Chair - High

Height adjustable chair with adjustable backrest, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and static feet.

Model: ST6151

General Medical Chair - Standard

Height adjustable chair with adjustable backrest and seat tilt, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6178

General Medical Chair - High

Height adjustable chair with adjustable backrest and seat tilt, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6179

Surgeons & Sonographers Chair - Standard

Height adjustable chair with adjustable ergonomic backrest and seat tilt, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6158

Surgeons & Sonographers Chair - High

Height adjustable chair with adjustable ergonomic backrest and seat tilt, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6159

Multi-Procedures Chair - Standard

Height adjustable chair with adjustable backrest, height range 45 to 59cm. 360º swing arm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6160

Multi-Procedures Chair - High

Height adjustable chair with adjustable backrest, height range 54 to 74cm. 360º swing arm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6161

Ergonomic Medical Chairs

Contoured Medical Chair - Standard

Height adjustable ergonomic chair with adjustable backrest, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC7212

Polyurethane Lab Chair - Standard

Height adjustable chair with adjustable backrest, height range 45 to 59cm. Aluminium base, aluminium gas lift and soft restraint castors.

Model: MC6111

Contoured Medical Chair - High

Height adjustable ergonomic chair with adjustable backrest, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC7213

Polyurethane Lab Chair - High

Height adjustable chair with adjustable backrest, height range 54 to 74cm. Aluminium base, aluminium gas lift, foot support ring and soft restraint castors.

Model: MC6114

Seating Accessories

Foot Height Control

Allows user to adjust height of seat pad, hands-free. If fitted to a high model, this omits the foot support ring.

Model: 6174

Foot Support Ring

Fitted as standard on all high models, this option is to fit to standard height products. Cannot be used with 6174 Foot Height Control.

Model: 6176

Height Adjustable Armrests (Pair)

A pair of height adjustable armrests, please check compatibility before ordering. Where compatible, this must be factory-fitted and cannot be retro-fitted.

Model: 6175

Anti-Static Castors

Set of 5 anti-static castors to replace the standard fitted castors. Reduces build up of static electricity.

Model: 6178

Spare Parts & Support

At **SEERS** Medical, we pride ourselves on providing a high quality product with matching high quality customer support. Our customer support team is based in the UK, along with our component stock for quick despatch of spare parts, to keep your products operational and minimise downtime. Spare parts are available for a minimum of 10 years from the last date of manufacture.

Our support doesn't just stop at our own products - as we're also able to support a variety of other UK-manufactured products, and can help with replacement upholstery and sourcing of parts for your non-**SEERS** equipment.

Our full range of spare parts is available to view and purchase (in the UK mainland only) on our website - **www.seersmedical.com**

Replacement Upholstery

Throughout the product's lifetime, it's not uncommon for the upholstery to be accidentally damaged, caught or cut. This exposes the foam to the outside world, allowing bacteria to enter the inside of the section. If this is then taped over or patched up, bacteria can grow inside and throughout the upholstery, becoming impossible to clean.

Our replacement upholstery is hand-crafted and can be made to measure for a variety of UK manufactured treatment couches, with various foam comfort options and over 30 different colours available.

For a quote for replacement upholstery, please contact our parts team with a photo of the damaged section and the serial number, at **parts@seersmedical.com**

Health Check & Asset Report

Keeping track of what equipment you have can be challenging with other pressing deadlines and KPIs to meet. We can help.

Our no-obligation, free of charge evaluation service will provide you a full report on the age, condition and level of support available for all of your treatment couches across a facility, hospital or entire trust.

If this service is of interest, please contact the team with the approximate quantity of products and the amount of site addresses at service@seersmedical.com.

Please note this service is only offered in the UK mainland.

Pre-Planned Maintenance & Reactive Call-Outs

When a treatment couch breaks down - it's not good for anyone involved. It can mean lost revenue, patients not being seen or services cancelled. Instead of waiting for a breakdown, it's a good idea to have a maintenance agreement in place, to prevent any unplanned downtime and avoid the inconvenience that comes with it.

We offer a range of different maintenance plans, based on volume of equipment and length of contract, and are able to support any UK-manufactured couches.

If you have an unexpected breakdown, let us know, and we'll arrange for an engineer to visit & resolve the issue, as soon as we can.

Please note this service is only offered in the UK mainland.

Deliveries in UK Mainland

SEERS Medical products are delivered throughout the UK mainland with a white-glove service. The option of unpacking & installation in the intended location, is available upon request at no additional cost.

Need your existing product taken away? We can arrange for your existing treatment table to be collected at the same time as delivery, for an additional cost.

Please note this service is only offered in the UK mainland.

Overseas Shipments

With products shipped all around the world, **SEERS** have an in-house team to help with arranging consignments delivered by road, air and sea. Using our long-standing relationships with trusted freight forwarders, we can help secure competitive rates to reduce shipping costs.

Contact the team at **logistics@seersmedical.com** to find out more.

Warranty

All examination couches and treatment tables are covered by a lifetime guarantee (15 years) on the metal framework, a 5 year warranty on moving parts, and a 12 month guarantee on upholstery, against manufacturer defects only.

For technical support, please contact our Customer Service team on +44 (0) 1728 861590 or email **cs@seersmedical.com**

Testimonials

See what some of our customers have to say...

★★★★★

If you would like an efficient, high-standard service and outstanding, great quality equipment, then you should definitely use **SEERS** Medical. After emailing her the required details, my son's Therapy Couch was delivered within 24 hours. The whole process was smooth and slick. This is a company that I would most definitely recommend to anyone. They not only look after the equipment, but look after the customer and take pride in their work.

★★★★★

Always receive brilliant service from all the team. All enquiries are handled quickly and in a pleasant manner. The highest recommendation for them all.

★★★★★

Thank you so much for your outstanding customer service and the very best quality products. The build quality is exemplary and the topping is super soft. Only the very best for my lovely clients. Highly recommended - Thank you.
