Quality is a team effort –
Diagramm Halbach has been delivering for more than 175 years

From one of the world's leading manufacturers of medical graph papers, Diagramm Halbach has evolved into an internationally recognized system supplier for consumables in the segment of medical technology.

Diagramm Halbach's reliablity is appreciated by clinics and retailers for medical products in more than 70 countries for the combination of product quality and availability.

Due to sophisticated logistics based on our warehouses with more than 5000 products permanently available from stock, you will appreciate the outstanding promptness and flexiblity of our deliveries.

Due to our Quality Assurance System according to ISO 9001 and being CE-certified, we are in the position to guarantee the highest standards of our products corresponding to OEM's specifications.

It will be a pleasure for us to demonstrate to you our efficiency and we are very much looking forward to be working with you.

Dipl.-Kfm. Ulrich Halbach

What are you waiting for? Make the right choice.

With Mitsubishi Electrics range of medical printers and consumables.

Cost effective but high in quality, Mitsubishi Electric offer a perfect range of digital printing solutions. Specifically developed for medical use, all components have been produced to the highest quality providing crystal clear results for you and your patients.
Such sophisticated design combined with the very latest features ensures you will receive the best possible performance with Mitsubishi Electric.
So what are you waiting for?

With printer and original paper from Mitsubishi Electric you always sit best.

SONY
make.believe

Why choose Sony?

The superior qualities of our medical print media

Your choice of medical print media is vital in achieving durable, long-term image quality. To ensure the optimal performance and longevity of Sony medical printers, you need to choose Sony print media. Using media of lower grade not only results in poorer image quality, but is also likely to result in early printer failure and higher maintenance costs.

Specifically designed to match the mechanical characteristics of Sony medical printers, Sony print media guarantees the hassle-free delivery of high quality images by giving you:

- Superior print quality
- Accurate grey-scale and colour reproduction
- Head-matching performance
- Anti-electrostatic layer
- Minimal curling
- Advanced tearing properties
- High humidity and heat resistance

How to store and archive thermal paper

Medical chart paper is mostly made of thermal paper.

Under poor storage conditions, graphic records printed on thermographic paper may fade.
To avoid this, the following recommendations should be observed:

do not store in hot or moist places, e.g. near air-conditioning systems,

do not expose to direct sunlight or UV irradiation for extended periods of time,

do not allow contact with alcoholic or other organic solvents,

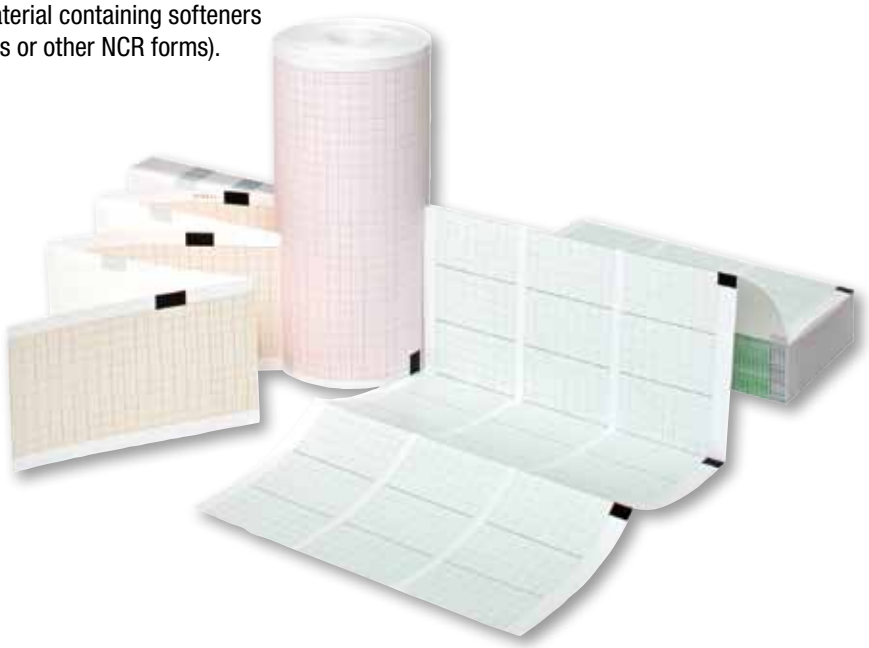

do not allow contact with water or aqueous liquids,

do not expose to excessive pressure (e.g. stuffed folders, mechanical stress caused by friction, etc.),

do no allow contact with softening agents or material containing softeners
(foil, plastic jackets, health insurance certificates or other NCR forms).

Printed ECG paper should preferably be stored between blank, untreated white sheets of paper (photocopying paper).

Fully developed recordings and graphic characters on thermographic paper should be stored in the dark at 20°C and a relative air humidity of 50%.

EEG/EMG accessories

Beside EEG paper, a wide range of EEG/EMG accessories is available as well of course, including:

- protective head covers and accessories
- cup electrodes
- ground electrodes
- needle electrodes
- snore sensors
- motion sensors
- abdominal recorders

Please ask for our
catalogue EEG/EMG accessories.

Patient Monitoring Accessories

Are you looking for compatible patient monitoring accessories of leading manufacturers such as Dräger, GE Medical Systems or Philips? We are able to deliver original or high-classed compatible products of above mentioned manufacturers and others.
Our Patient Monitoring Program includes:

- ECG cables for monitoring, holter and diagnostic applications
- Monitoring blood pressure cuffs & NIBP hoses
- Manual blood pressure cuffs and accessories
- Temperature sensors and Foley catheters
- TOCO & US transducers

Please ask for our
Patient Monitoring catalogue.

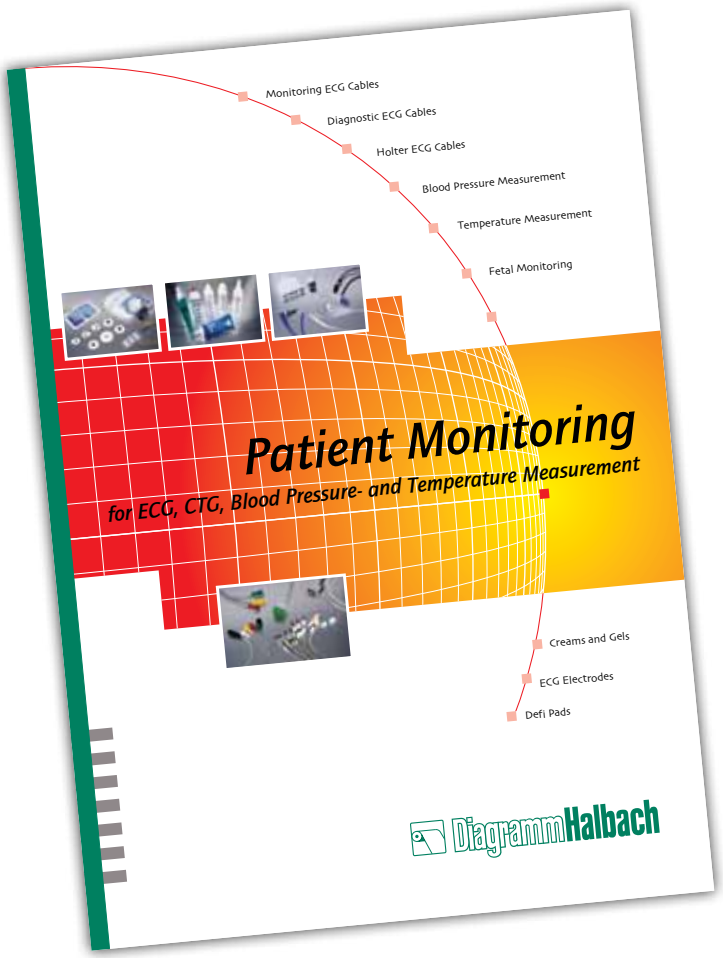

Accessories for Fetal Monitoring

Transducers, waterproof

Type	Description	Pack	Code No.
Transducer for GE Corometrics	TOCO; for all types	1	828532
Transducer for GE Corometrics	US; for 118, 120, 128, 151, 170	1	828531
Transducer for Philips	TOCO; for M1350A, M1355A	1	828528
Transducer for Philips	US; for M1350A, M1355A	1	828527

CTG Belts

Type	Description	Size	Pack	Code No.
CTG belt	GE 2015919-001	6 cm x 110 cm	2	828069
CTG belt	Philips M1562A	5 cm x 130 cm	5	828017
CTG belt	Philips 1500-0643	6 cm x 15 m	1	828027
Adjustment Button	Philips M1569A		10	828058
CTG belt	Clinical blue	6 cm x 130 cm	1	828068

CTG Electrodes

Type	Description	Pack	Code No.
Fetal Electrode	GE, Qwik Connect Plus, 7000AAO	50	849928
Fetal Electrode	Philips 989803139771	25	849820
Fetal Electrode	Philips 989803137631, single helix	25	849920
Fetal Electrode	Philips 989803137631, double helix	25	849929

Sensors for Pulsoximetry and Ventilation

We provide a wide range of SpO_2 sensors. Beside original sensors from Masimo and Nellcor, we also deliver high-quality compatible sensors for

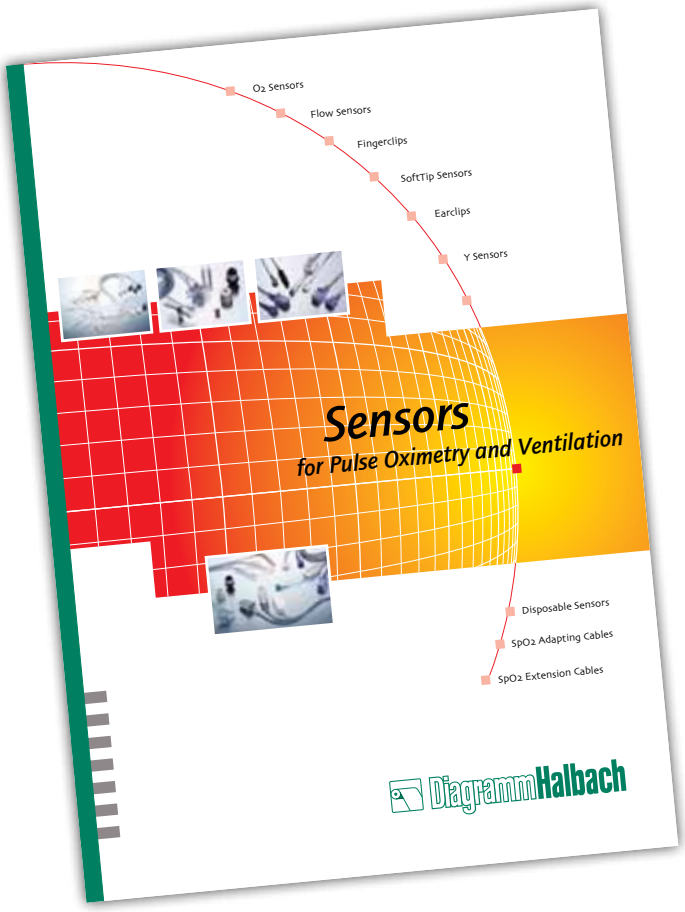

- BCI
- Datascope
- Dräger
- GE
- Nellcor (No-Max)
- Nihon Kohden
- Nonin
- Philips
- and many more

Of course, oxygen and flow sensors for the most common ventilation and anaesthesia devices are available, too.

Please ask for our
Sensors catalogue.

NIBP Accessories for Patient Monitors

Single Tube Reusable Cuff, Monitoring Use

Type	Size	Pack	Code No.
Clinical Neonates	6 - 11 cm	1	828200
Clinical Infant	10 - 19 cm	1	828201
Clinical Pediatric	18 - 26 cm	1	828202

Accessories for HF Surgery

Accessories for HF surgery are brand new in our product range. Supported by a strong partner, we will help you realize savings potentials by using well-established compatible products, including:

- HF handles
- Bipolar forceps cables
- Monopolar connection cables
- Connection cables for neutral electrodes

Please ask for our
Accessories for HF Surgery catalogue.

Your reliable partner in the clinical sector!

Camelion

Camelion offers you the **full range of products** in the area of mobile energy and mobile light.

The versatile program includes batteries, rechargeable batteries, chargers, flashlights, LED and energy-saving lamps.

Camelion products are manufactured **in accordance to the latest technologies** and manufactured to meet the highest quality requirements according to ISO 9001.
The **good quality** has been selected by various journals in comparative tests with other battery brands tested and received good test results.

CAMELION - the complete solution in the field of mobile energy & light!

Alkaline-, Silver-Oxid-, Zinc-Air- and Lithium Buttoncells

Excellent Awarded Products!

ideal for smoke detectors

Medical Lamps and Batteries

Diagramm Halbach also delivers medical lamps (such as Perkin, Elmer, Osram, Hanaulux, Dr. Mach, Philips) and batteries for infusomat systems (Braun, Fresenius, etc.). Our range of lamps and batteries consists of:

- OP lamps compatible with Berchtold, Dr. Mach, Hanaulux, and Martin
- Xenon lamps from Perkin Elmer
- Metal halide and short-arc lamps from Osram
- Halogen lamps with/without reflector
- Lamps for microscopes
- Lamps for otoscopes and laryngoscopes from Heine
- Light conducting cables and adapters for endoscopy
- Spare batteries for the most common medical equipment manufacturers in the categories lithium, nickel-cadmium, and nickel-metal hybrid

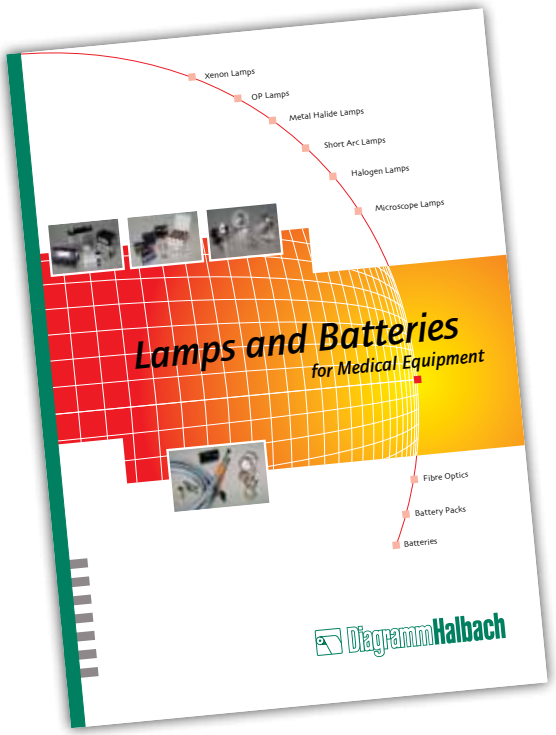

Please ask for our

Lamps and Batteries catalogue.
