EDAN SynSight

- Powerful image processing hardware and high-performance beam-forming algorithm, greatly improved contrast and lateral resolution
- Dynamic focusing on full-field, no physical focus adjustment required, excellent image uniformity, consistency, penetration

EDAN

Distinctive Design

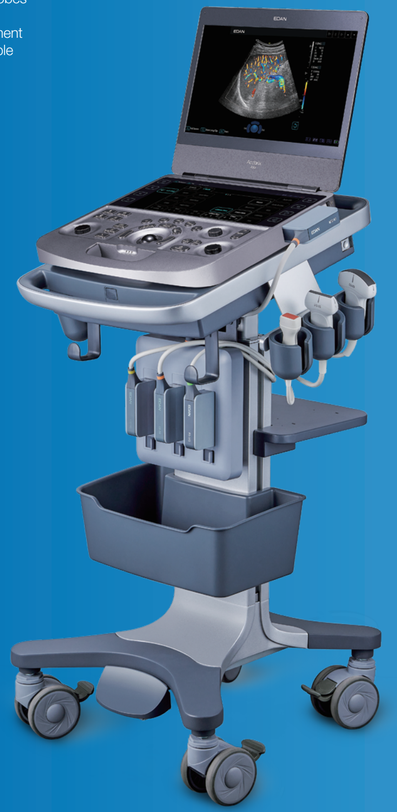

Always Ready

- 15.6” high resolution LED monitor, 0°-180° tilt design
- 12.3” touch screen, large and responsive
- Interactive back-lighting control panel for darkroom operation
- 8 hours continuous scanning with ePower
- Compact multiple transducers connection, 3 probes connected maximum
- Configurable Cart with semi-auto height adjustment
- Flexible high-capacity storage tank & placing table

Simple but Reliable

- Magnalium alloy body aims high standard durability
- 4.8 kg light weight, compact and easy-to-go
- 2 batteries effectively extend scanning time
- About 35 seconds fast cold start and 7 seconds boot-up from sleep
- Large storage capacity for daily diagnostics

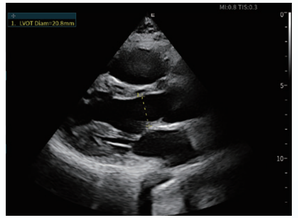

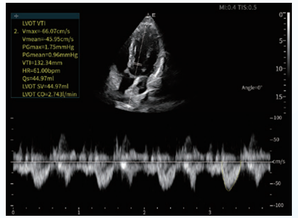

Stunning Clarity

Powered by the latest SynSight zone sonography platform, the Acclarix AX9 offers extraordinary profitability in both imaging quality and automatic solutions, combined with its portable design and simplified workflow, make it ideal for all applications. The Acclarix AX9 has been designed from the ground up with a relentless focus on delivering unexpected levels of innovation and performance at a price point that is equally surprising.

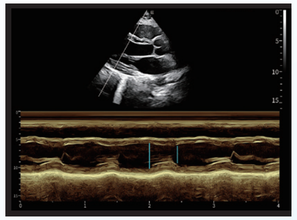

Cardiology Application
