EDAN SynSight

- Powerful image processing hardware and high-performance beam-forming algorithm, greatly improved contrast and lateral resolution
- Dynamic focusing on full-field, no physical focus adjustment required, excellent image uniformity, consistency, penetration

EDAN

Distinctive Design

Always Ready

- 21.5" High definition full touch screen supporting wide angle tilting & swiveling
- Splash-proof and seamless
- Integrated lightweight and compact system, up to 23cm height adjustment
- Capable of supporting 3 transducer connectors
- 8 removable build-in Li-ion batteries, helping all day scanning
- Configured large storage basket and cable management

Simple but Reliable

- One key CleanLock for effortless wiping
- Smart ClearView to maximize clarity
- Dynamic tutorial eLearn software
- Dedicated button probe, small in size but big on touch
- Customizable touch screen

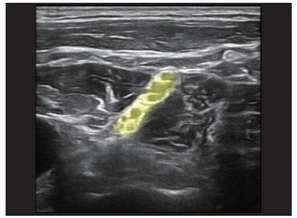

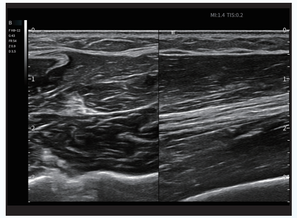

Stunning Clarity

Powered by the latest EDAN SynSight, the Acclarix GX9 offers extraordinary balance in both imaging performance and POC solutions. Combining with its full touch screen and simplified workflow, the system is ideal for pain management / anesthesia / critical care and emergency application. In particular, the smart assessment solution saves more time for clinical scenarios.
