Incontinence Treatment And Postpartum Rehabilitation

Q Series

Handheld Biofeedback and Stimulation System

EDAN
A world of potential

Q Series

Handheld Biofeedback and Stimulation System

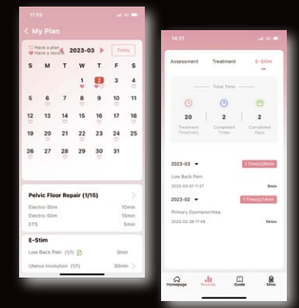

The Q series is a non-surgical, non-drug, and safe solution for the treatment of urinary incontinence and post-partum rehabilitation. It has two electrical stimulation and EMG biofeedback channels. The user-friendly device based on APP with voice-guided operation is easy to use for everyone!

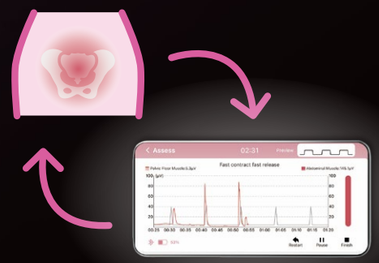

Key Features

Easy Control with EdanQ APP

- Support on your iOS or Android smartphone or tablet
- User-friendly with voice-guided operation
- Training plan management, regular reminders

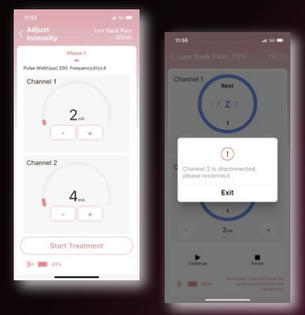

Accurate Assessment

- Unique signal feature analysis algorithm improves assessment accuracy
- 2 EMG/STIM channels offer abdominal muscle monitoring during assessment and biofeedback training for better treatment effects

Effective and Precise Rehab

- Multiple pre-set programs for treatment of pelvic floor dysfunctions, such as stress urinary incontinence
- Multiple pre-set programs for postpartum recovery and pain relief for multiple body parts

Safe and Reliable

- Manually adjust the current to prevent sudden changes
- Intelligent detection of electrode falling off

Highly-integrated module

- Dual channel
- Bluetooth
- Lithium battery
- Weight＜220g
- Channel indicator
- USB-C port
- Medical grade materials
- IP22
