F15

Fetal & Maternal Monitor

EDAN

A world of potential

F15

Fetal & Maternal Monitor

As the the ultimate CTG Machine, F15 series fetal monitor is the perfect combination of advanced technology and gold standard algorithm in the new era. With a state-of-the-art design, delicate appearance and strong strength are the biggest sincerity of medical equipment manufacturers, each probe seems to be like a work of art. Meanwhile, smarter workflows require more powerful technologies, such as automatic probe activation and wireless charging, to keep the monitoring process in hand. Consider F15 not only for today's mornitoring needs but also as an enduring platform for the future.

Comprehensive Display

Full-parameters are displayed on a 15.6 inch Touch Screen, including the Twins and Triplet parameters.

Advanced Monitoring via Wireless Probes Technology

Mom-to-be could also be beneficial from freedom of movement when monitoring by wireless transducers.

Montoring with More Possiblities

- Wireless Charging
- New TOCO-P solution monitor the Maternal Pulse without the SpO2 or MECG
