PES PILOT HDpro 2022

The new standard in videoendoscopy

otopront®

PES PILOT HDpro 2022

The upgrade of the PES PILOT HDpro with a new, even more brilliant touchscreen, extended software functions and an improved software interface enables even more intuitive control and a further optimised examination procedure.

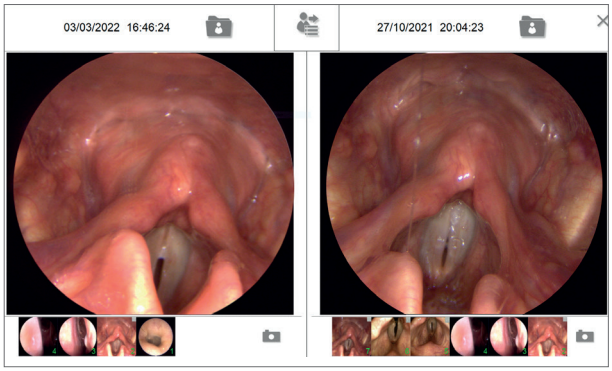

New touchscreen in 15.6“ or 21“

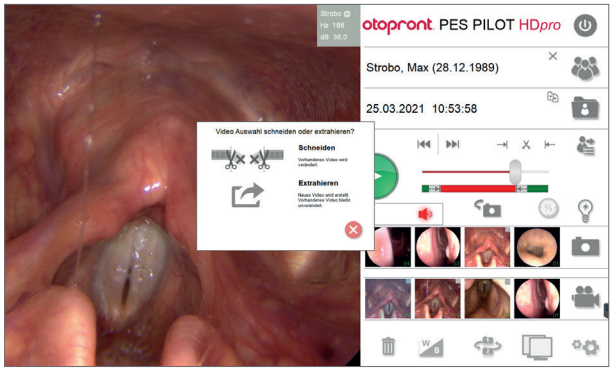

Workflow optimisation:
Operation through gesture control via Smartwatch or optional Kinemic Band

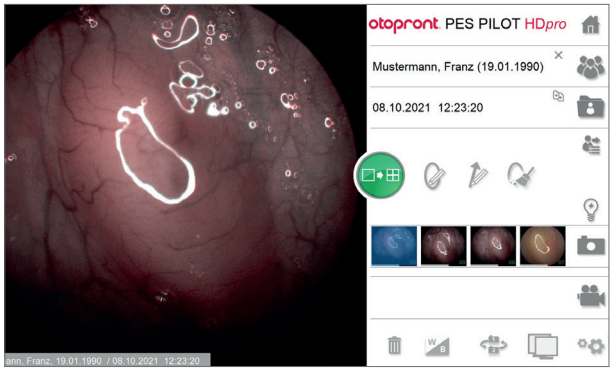

+ Full HD camera fully integrated in the microscope head
+ Zoom adapter for double optical zoom (15 mm - 35 mm)

Convenient image comparison for easy comparative diagnosis

Video editing tool for cutting and extracting any video sequences

Otopront Picture Enhancement (OPE):
Procedure for the optical highlighting of conspicuous vascular and tissue patterns
