Type Lausanne

The next step in TORP and PORP ossicular reconstruction

Expanding what matters

The prosthesis Type Lausanne expands our established portfolio of TORP and PORP geometries to better meet evolving surgical needs. This prosthesis reflects our commitment to refining middle ear solutions based on clinical demand.

Designed for better visibility

The newly developed head plate geometry improves the view of the stapes footplate during placement.

- Enhanced intraoperative orientation
- Greater control during positioning

Secure placement. Reliable contact.

- Wide shoe design remains unchanged:
  - Reliable contact with the stapes footplate
  - Proven stability where it matters most

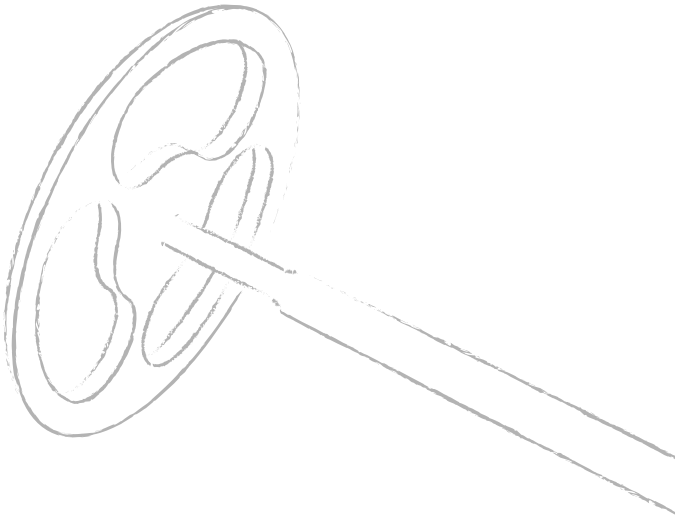

Built on proven principles

The prosthesis Type Lausanne maintains the key elements that surgeons trust.

- Continuity with existing TORP and PORP geometries
- Familiar handling characteristics
- Reliable stapes footplate interface

Advances

- Improved headplate for better visibility
- Wide shoe for a reliable contact to footplate
