Ophthalmology

Chairs that optimize eye exams and eye surgeries

CE ISO 9001
ISO 14001

Designed and manufactured in Denmark since 1935

VELA 'Move+' Ophthalmology Chair

Item no. 70034

The VELA 'Move+' Ophthalmology Chair is ideal for eye exams where the patient needs to be transported between different devices and equipment in a quick and safe manner. Large seat and backrest.

:: Gliding wheels and push bar make it easy to transfer the patient between different examination devices. The patient only needs to sit down and get up from the chair once, which speeds up the examination process

:: Lockable chair base provides secure patient positioning

:: Patients can be quickly positioned at the optimal height for staff and devices using the electric height adjustment

:: Patients can easily sit down and get up from the chair without help by using the armrests and stable base

:: Optimal ergonomic working position for staff with no unnecessary bending forward, thanks to the electric height adjustment and foot-operated brake

VELA 'Basic+' Ophthalmology Chair

Item no. 70033

The VELA 'Basic+' Ophthalmology Chair is ideal for eye exams where the patient must remain stable for the exam to be properly performed and the best images obtained.

:: Patients can be quickly positioned at the optimal height for staff and devices using the electric height adjustment

:: Lockable base allows quick patient positioning and easy adjustment to different equipment

:: Optimal ergonomic working position for staff with no unnecessary bending forward, thanks to the electrical height adjustment and foot-operated brake

:: Patients can easily sit down and get up from the chair without help by using the armrests and stable base

VELA 'Support+' Surgeon's Chair

GET ERGONOMIC SUPPORT IN BOTH LUMBAR, PELVIC AND BACK, AS WELL AS FREE MOVEMENT OF ARMS AND SHOULDERS

RELIEVE ARMS, SHOULDERS AND NECK WITH THE MULTI-ADJUSTABLE ARMSUPPORT THAT YOU CAN SWING AWAY

ADJUST YOUR SITTING HEIGHT AND POSITION YOURSELF CORRECTLY WITH A FOOT-OPERATED ELECTRIC HEIGHT ADJUSTMENT

CORRECT YOUR POSITION AT THE BED WITHOUT COMPROMISING STERILITY WITH A FOOT-OPERATED ELECTRIC BRAKE

Item no. 70041

The VELA 'Support+' Surgeon's Chair improves the surgeon's preconditions for a good ergonomic working posture during longer precision work. The chair's design supports the surgeon's working posture, minimising the risk of strain injuries. It is easy to change position and height during operations via foot-operated electrical functions. It can be used by more people as it is easy to adjust.

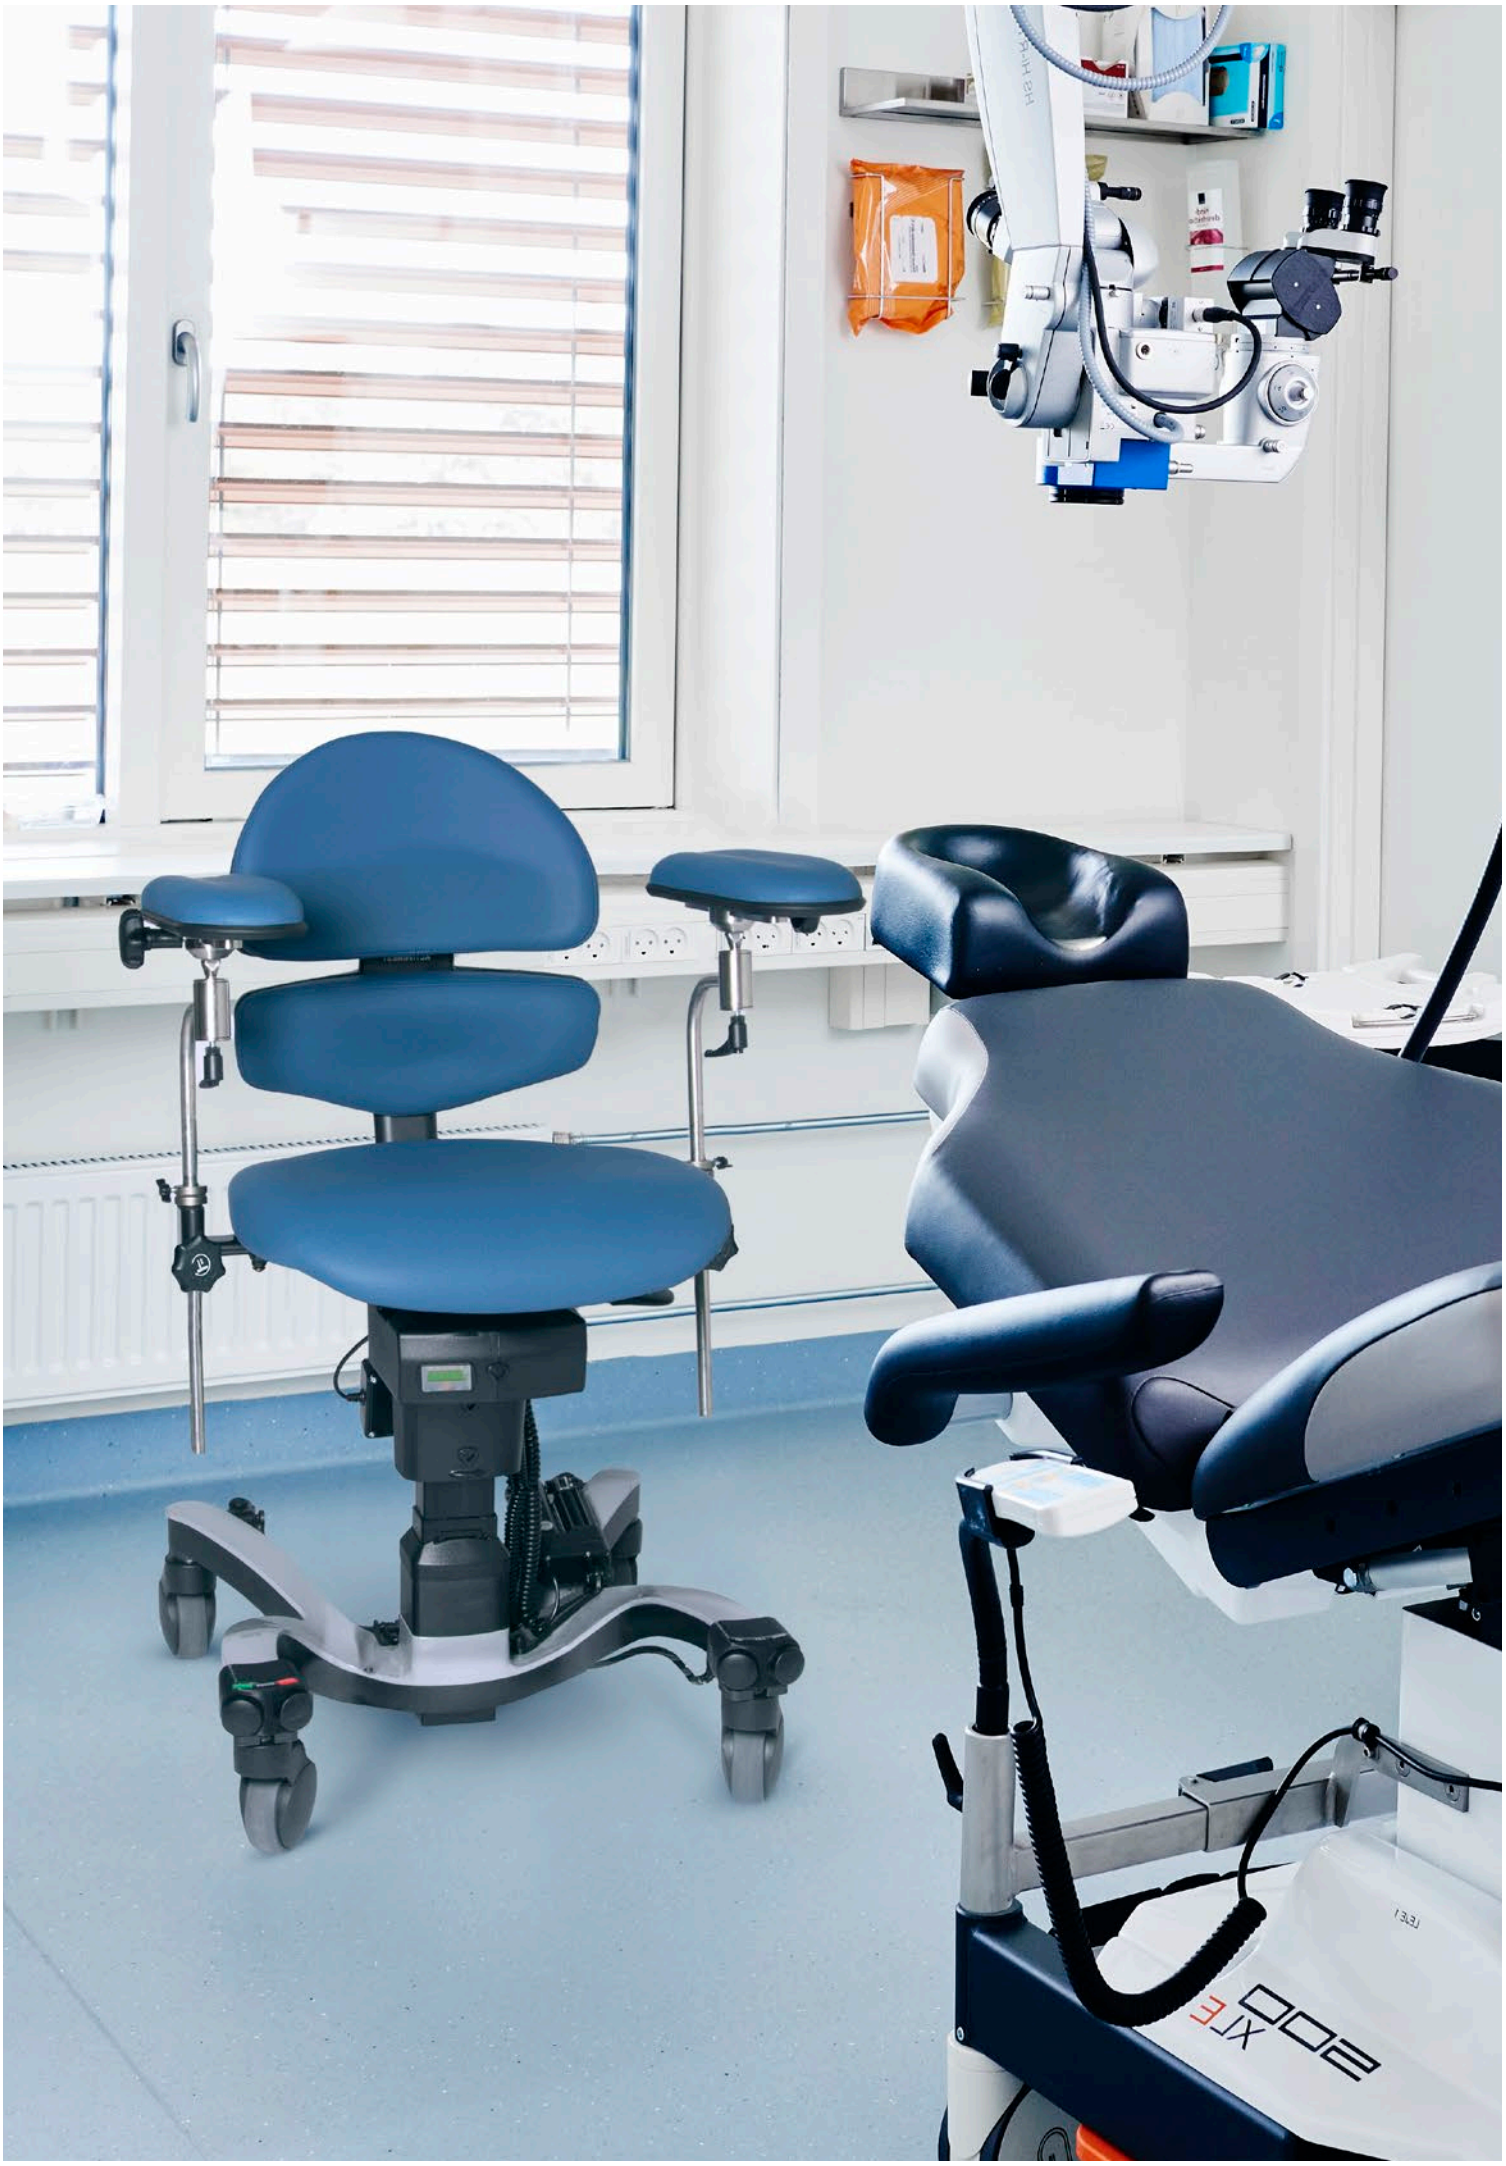

:: Get an optimal ergonomic working position whether you want free movement or full forearm support to relieve back, shoulders and neck.

:: Optimise your height while you operate. The electric foot control is easy to use, maintaining a sterile working environment during surgery.

:: Get plenty of room for your feet and get extra close to the bed, due to the chair's unique design - also with the arm support.

:: Get the proper working position by the bed and adjust it in a sterile working environment. The chair has smooth-running wheels and a unique foot-operated electric central brake.

:: Achieve good posture, free movement of arms and shoulders and optimal support in the lower back and pelvis from the patented ALB backrest.

Staff chairs for examinations

VELA Samba 150

Item no. 80143

VELA Samba 150

:: Extra short seat with a tilt allows close access to the bed while avoiding a bent-over working position

:: Adjustable backrest supports an active sitting position and provides free movement of shoulders and arms

:: Seat relieves pressure on the seat bones and increases comfort using different foam types and a pressure relief zone in the centre of the seat

:: Ergonomic design and rounded seat edge enables staff to sit for long periods in the same position while maintaining good blood circulation in the legs

:: Ideal for work that involves switching between sitting and standing positions

VELA Latin 100

Item no. 80131

VELA Latin 100

:: Easy adjustment of seat height and tilt as well as backrest settings for active seating positions that promote movement

:: Ergonomically shaped seat and backrest that support and promote good posture

:: Easy-to-read pictograms on the chair handle assist quick and easy chair adjustment

All chairs and stools are available with different types of wheels and foot-operated height adjustment.

Stools

VELA Samba 520

:: Small and compact stool ideal for shorter, sedentary work

:: Adjustable ergonomic backrest promotes an active seating position and allows the shoulders and arms to move freely

:: Compact design makes it easy to move around while sitting

:: The seat height is easily adjustable

VELA Samba 500

:: Compact stool without backrest, easy to store under a table when not being used

VELA Samba 520

Item no. 80149

VELA Samba 500

Item no. 80148

VELA Samba 420

:: Saddle seat stool with narrow, adjustable backrest provides ergonomic seating positions for varying sedentary work

:: Provides seated mobility while performing different tasks

:: Saddle seat with a tilt gives an open hip angle and promotes an active, erect seating position

:: Compact design makes it possible to sit very close to the equipment, device or patient

VELA Samba 400

:: Stool with saddle seat promotes a good working position and prevents a stooping posture

VELA Samba 420

Item no. 80145

VELA Samba 400

Item no. 80144

Hygiene Benefits

VELA medical chairs are designed to meet the stringent hygiene and disinfecting requirements in the healthcare sector

:: For optimal hygiene, chairs have easy-to-clean surfaces without recesses where dirt might gather, including the underside of the chair

:: All backrests are supplied with edge bands to prevent dirt collecting in the joints

:: The chairs have easily cleanable surfaces without any recesses, where dirt might gather

:: All parts can withstand disinfection, for example, with alcohol or chlorine at the recommended concentration and mixing ratios

:: Light-coloured surfaces make it easy to spot marks when cleaning

Distributor Details:

Danish quality

VELA is a Danish family-owned company founded in 1935 by Vermund Larsen. VELA is headquartered in Aalborg, Denmark and has its own development department, and production and padding workshop. In order to be close to our customers, we have a strong, international dealer network.

CHAIRS DESIGNED WITH CARE AND PRECISION

The development department at VELA is constantly focused on optimising safety, functionality and ergonomics in cooperation with health professionals.

We take into consideration that chairs in the healthcare sector are exposed to severe wear and tear for many hours each day.
At VELA, we use hard-wearing mechanical parts and extra-durable seating materials to keep the chairs clean and functional for many years. All VELA chairs are CE marked and made in Denmark.
