comprehensive solutions for healthcare providers

2027

product catalogue **2027**

We are a manufacturer of disposable medical equipment and a provider of comprehensive healthcare solutions. Established in 1989 as a small family-owned business, today we ensure that **our products reach every place where they are needed.** We are building our international presence through subsidiaries across Europe and a dynamic export team. We supply hospitals and medical institutions, delivering medical devices to more than 70 countries worldwide. ZARYS meets even the most demanding needs of customers **around the globe.**

solutions
made in Poland

Our modern production facility in Zabrze features two key areas:

- **Cleanroom – 600 m²**: a controlled environment dedicated to the production of sterile surgical and procedure kits, ensuring the highest standards of cleanliness.
- **Sewing Facility:** dedicated to the production of high-quality medical and protective clothing, hospital linens, and personal protective equipment.

600 m² cleanroom

ZARYS

Comprehensive Portfolio

Our clients benefit from product groups that ensure **complete supply for healthcare facilities:** from basic medical devices, medical gloves, dressings, and surgical drapes, to advanced surgical kits, and procedure packs.

How do we ensure the availability of medical devices?

The ZARYS logistics center is located in the Katowice Special Economic Zone and is the largest warehouse of single-use medical equipment in Central Europe. A team of 150 employees ensures efficient order processing, preparing an average of 100 shipments per hour.

ZARYS products are used daily in thousands of hospitals worldwide.

200 000
orders annually

Anti-wrinkle effect proven in clinical trials*

*The mediCARE Hydra+ glove shows better anti-wrinkle action compared to a traditional nitrile gloves, with visible wrinkle reduction after just one day of use and a gradual improvement throughout the study.

Almond oil

regenerates, moisturizes, slows down the skin aging process, smoothes, firms, helps remove dead cells, brightens the skin, soothes irritations and accelerates the healing of skin lesions, strengthens the skin's hydro-lipid coat

Vitamin E

a natural antioxidant, the vitamin of youth - fights free radicals and prevents the formation of wrinkles, provides long-lasting moisturization

Glycerin

moisturizes, improves the appearance of the skin, smoothes, soothes irritations

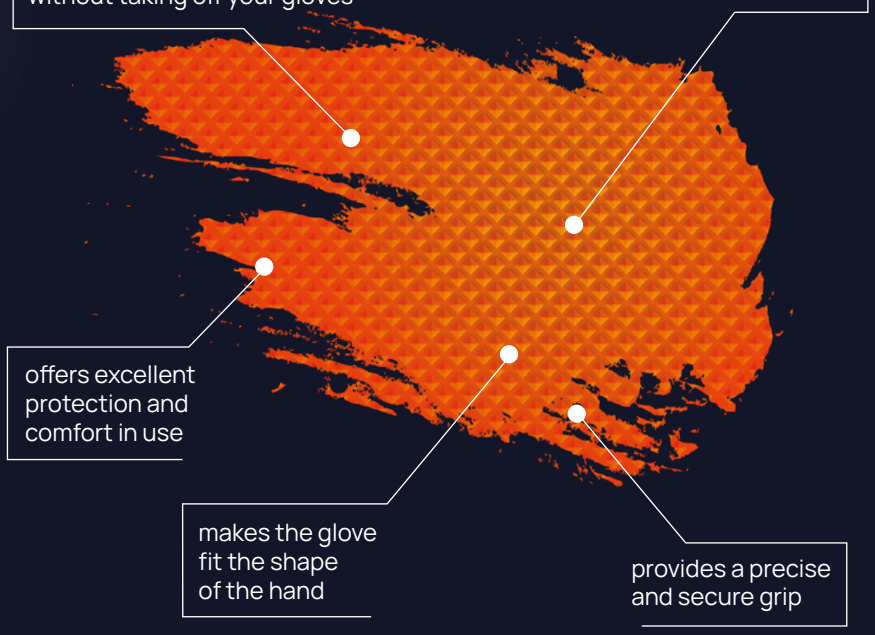

Gripzzly by ZARYS

choose strength and protection

Gripzzly gloves are made of high-quality nitrile and are characterized by extraordinary strength and thickness. This translates into their durability and increased resistance to all kinds of damage. Gripzzly gloves provide comfort, especially during prolonged and demanding tasks.

diamond texture

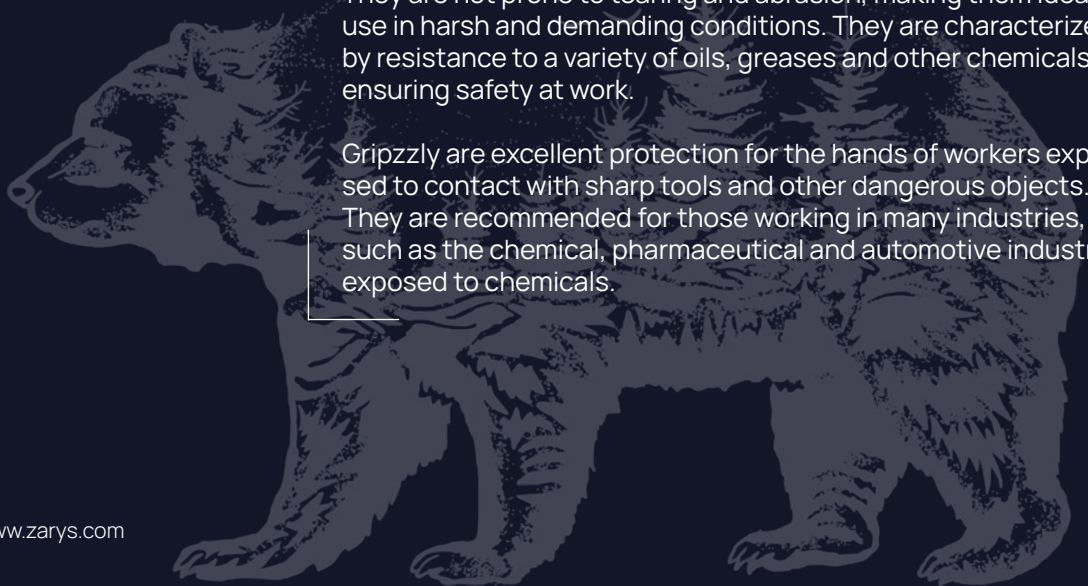

work safety

Gripzzly gloves are a guarantee of safety and comfort at work. They are not prone to tearing and abrasion, making them ideal for use in harsh and demanding conditions. They are characterized by resistance to a variety of oils, greases and other chemicals, ensuring safety at work.

Gripzzly are excellent protection for the hands of workers exposed to contact with sharp tools and other dangerous objects. They are recommended for those working in many industries, such as the chemical, pharmaceutical and automotive industries, exposed to chemicals.

Save space, **increase safety**

reduction space up to up 80%

Ease of adjustment

The dispenser can be opened both vertically and horizontally, allowing for easy adaptation to almost any space.

Space saving

The compact dispenser reduces space requirements by up to 80% compared to standard packaging.

Easy access

The packaging ensures easy access to gloves and optimal storage.

Sustainability

Smaller packaging means lower cardboard consumption, contributing to waste reduction and a lower environmental impact.

safeCARE

The safeCARE surgical glove packaging system is a breakthrough in space management and hygiene in medicine. The compact dispenser **holds up to 50 pairs of** sterile gloves, **reducing space requirements by up to 80%** compared to standard packaging for this type of product.

SafeCARE surgical glove packaging not only ensures **easy access and optimal storage,** but also helps maintain **high standards of hygiene and safety by** protecting against contamination, damage, and contamination.
They also offer usage control, enabling **efficient inventory management.**

Time savings and increased work efficiency

An additional opening for returning unopened pairs of gloves saves time and increases staff efficiency without having to open the entire package.

Safety and hygiene

The packaging ensures a high standard of hygiene and safety, protecting against contamination, damage, and contamination.

Usage control

Effective inventory management is possible thanks to the glove consumption control feature.

Quantum secure technology

The inner coating of the gloves is an innovative solution that makes them easy to put on both dry and wet hands. **Quantum Secure Technology** reduces friction and improves comfort. The QST coating ensures safety and works in harmony with the structure of the gloves themselves, guaranteeing optimal strength and flexibility while raising hygiene and safety standards.

PROTECTIVE COVERALL SAFE+
AGAINST CHEMICAL AND INFECTIVE AGENTS
TYPE 4b - 5b - 6b

Personal protective equipments (PPE) are products that protect against one or more risks to the user's health or safety. These products must comply with Regulation (EU) 2016/425 of the European Parliament and of the Council. PPE is classified into three categories according to the degree of risk.

The coverall is a PPE category III in accordance with the Regulation (EU) 2016/425 of the European Parliament and of the Council

The category III covers products of complex construction, intended to protect health or life against risks that may cause death or irreversible damage to health.

features:

- made of a laminate (non-woven polypropylene and polyethylene) with a weight of 63 g/m²
- polyester seams additionally covered with tape
- equipped with a hood with elastic trim
- equipped with an elastic waist band, wrists and ankles
- zipper covered with a self-adhesive flap
- available in version with boots

Standards:

Coverall is personal protective equipment of category III in conformity with Regulation (EU) 2016/425 of the European Parliament and of the Council

EN ISO 13688:2013 Protective clothing. General requirements

TYPE 4 B — EN 14605:2005 +A1:2009

EN 14605:2005+A1:2009 Protective clothing against liquid chemicals. Performance requirements for clothing with liquid-tight (Type 3) or spray-tight (Type 4) connections, including items providing protection to parts of the body only (Types PB [3] and PB [4])

TYPE 5 B — EN ISO 13982-1:2004 +A1:2010

EN ISO 13982-1:2004+A1:2010 Protective clothing for use against solid particulates. Part 1: Performance requirements for chemical protective clothing providing protection to the full body against airborne solid particulates (type 5 clothing)

TYPE 6 B — EN 13034:2005 + A1:2009

EN 13034:2005+A1:2009 Protective clothing against liquid chemicals. Performance requirements for chemical protective clothing offering limited protective performance against liquid chemicals (Type 6 and Type PB [6] equipment)

CLASS 1 — EN 1073-2:2002

EN 1073-2:2002 Protective clothing against radioactive contamination. Part 2: Requirements and test methods for non-ventilated protective clothing against particulate radioactive contamination

EN 14126:2003 + AC:2004

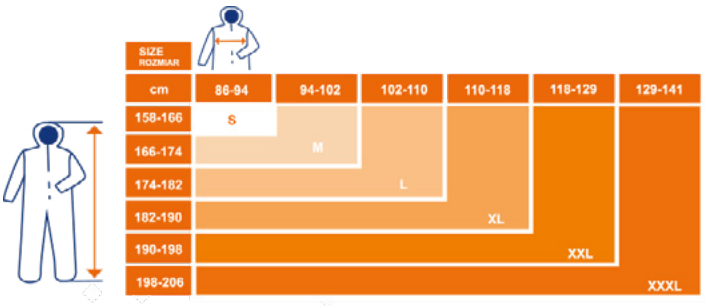

EN 14126:2003 + AC:2004 Protective clothing. Performance requirements and tests methods for protective clothing against infective agents

class 6 Resistance to penetration of contaminated liquids under the influence of hydrostatic pressure
class 6 Resistance to penetration by infective agents due to mechanical contact with substances
class 3 Resistance to penetration of contaminated liquid aerosols
class 3 Resistance to penetration of contaminated solid particles

EN 1149-5:2018

EN 1149-5:2018 Protective clothing. Electrostatic properties. Part 5: Material performance and design requirements
